Global Reciprocal Colleges

GRC Enrollment System

User manual and guide

Accounting Staff edition, for Global Reciprocal Colleges

Edition 1.0, October 2026

Contents

For everyone

Getting started

Sign in, find your way around, and read the words the system uses — 9 topics

- How enrollment works, start to finish
- Signing in
- Setting up your account for the first time
- If you forget your password
- Finding your way around the portal
- Notifications
- Using GRC Connect on your phone
- Words you will see
- When something goes wrong

By role

Accounting Staff

Serve the payment queue and keep each student's account — 8 topics

- Payment Queue
- Transaction History
- Advance Payment
- Statement of Account
- COR Records
- Queue Kiosk Access
- Enrollment Dashboard
- Fee Settings

Getting started

GRC Connect is where Global Reciprocal Colleges runs enrollment: schedules, subject selection, approvals, payment and records. Everyone signs in at the same page and sees only the pages that belong to their role.

This chapter applies to every role. After it, open the chapter for your own role to see its pages and how to finish each task.

How enrollment works, start to finish

Enrollment passes through several offices, in a fixed order. Knowing who has the next step tells you why a request is waiting and who to ask about it.

- **Registrar Head**

  Creates the school year and semester that starts the enrollment cycle.

- **Program Head**

  Plans the sections, rooms, capacities and teachers for each subject, then sends the schedule for approval.

- **Dean, then Executive Director**

  The Dean approves the plan or returns it with notes. The Executive Director gives the final approval and publishes it.

- **Student**

  Chooses a section for each subject and submits the enrollment.

- **Program Head, for irregular enrollments**

  Approves or rejects an irregular or overloaded enrollment of their own college before it reaches the Registrar.

- **Registrar Staff or Registrar Head**

  Approves the submitted enrollment so the student can go to payment.

- **Accounting Staff (the Cashier)**

  Calls the student's queue number and confirms the payment. The enrollment is then complete and the Certificate of Registration is ready.

> **Good to know**
> New freshmen and transferees pay first. Admission gives them a queue number, the Cashier confirms their first payment, and only then do they receive the email to set up their account.

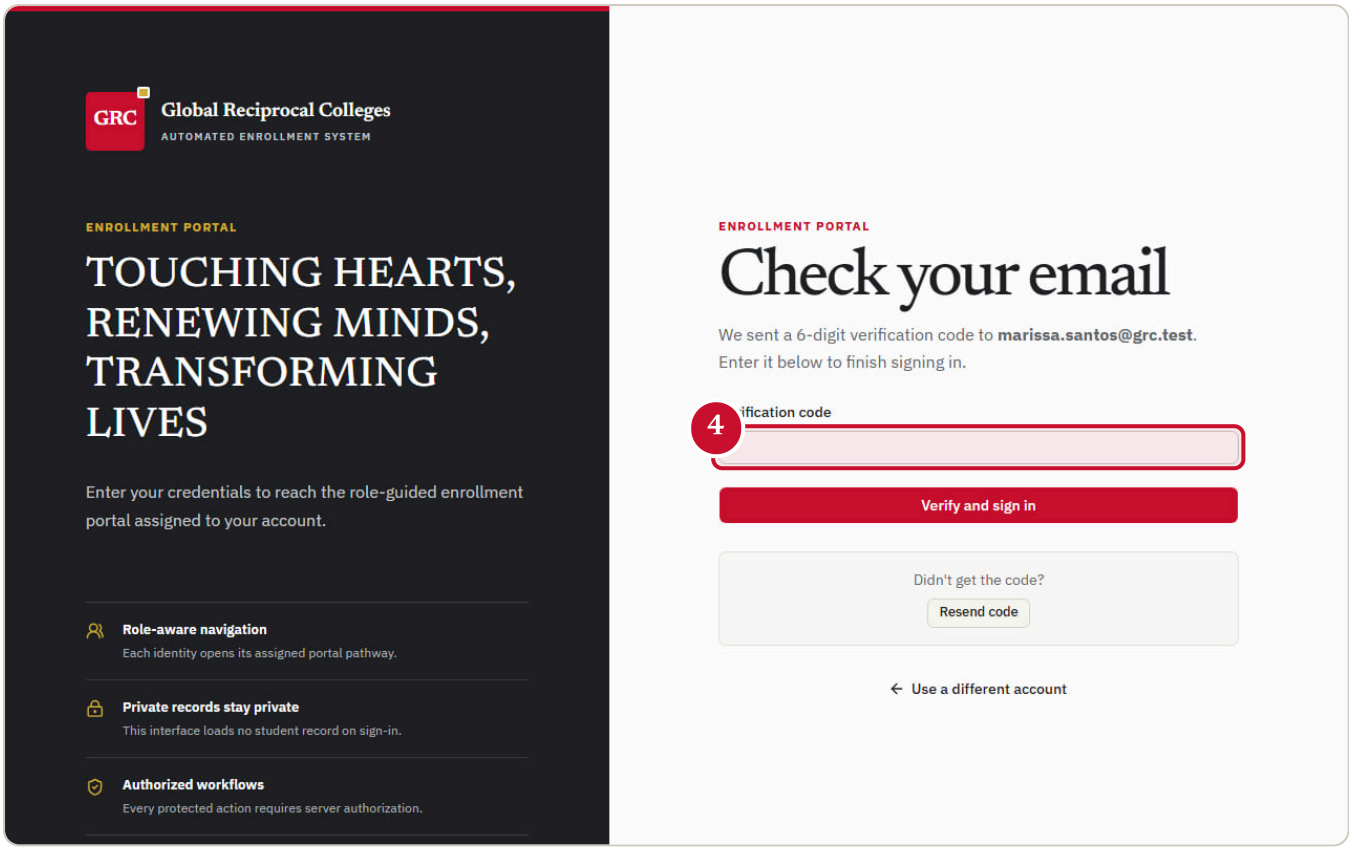

Signing in

Open the sign-in page from the **Sign in to portal** button on the home page. Use the email address your office registered for you.

1. Type your **Email address**.
2. Type your **Password**.
3. Select **Sign in**.
   You can also use Sign in with Google, if a GRC account exists for that Google email.
4. If asked, enter the 6-digit code sent to your email and select **Verify and sign in**.
   The sign-in page then says Check your email. The code works for a short time and only a few wrong attempts are allowed. Select **Resend code** if it does not arrive.

The sign-in page.

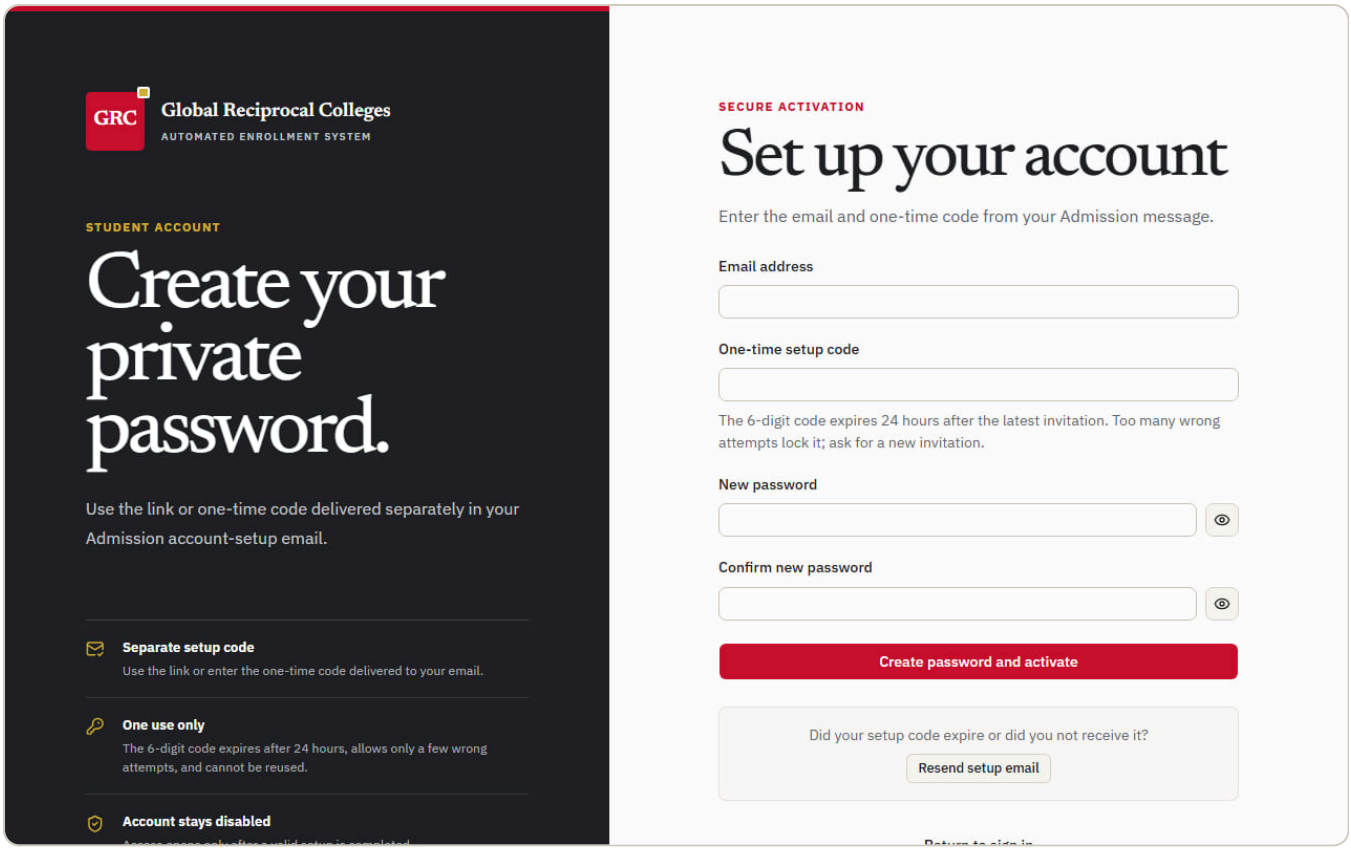

Step 4: the code step, shown when the system needs to confirm it is you.

> **Tip**
> You may not be asked for a code if you signed in a little while ago. Sign out when you use a shared computer.

Setting up your account for the first time

You do not choose your own password at first. Your office sends you an email with a 6-digit setup code. Students receive it from Admission. Professors are invited by their Program Head, and staff by the Registrar Head.

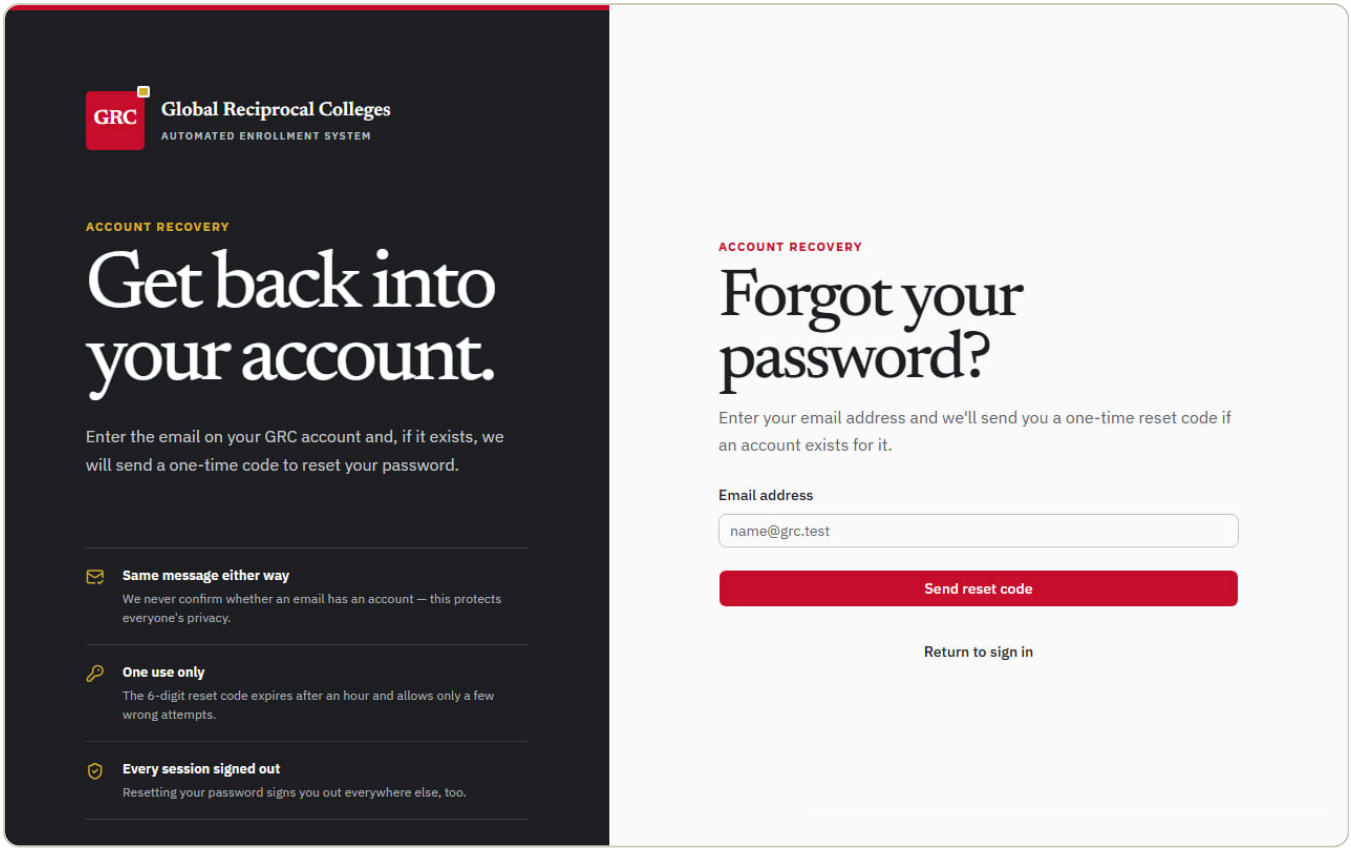

The account setup page.

1. Open the link in the email, or go to the account setup page.
2. Enter your email and the 6-digit **setup code**.
3. Create your password, then type it again to confirm it.
   Use at least 8 characters with a lowercase letter, an uppercase letter, a number and a symbol.
4. Select **Create password and activate**, then sign in with your new password.

> **Be careful**
> The setup code can be used once and expires after 24 hours. A student whose code expired can select **Resend setup email** on the same page. Professors and staff ask the office that invited them to send a new one.

If you forget your password

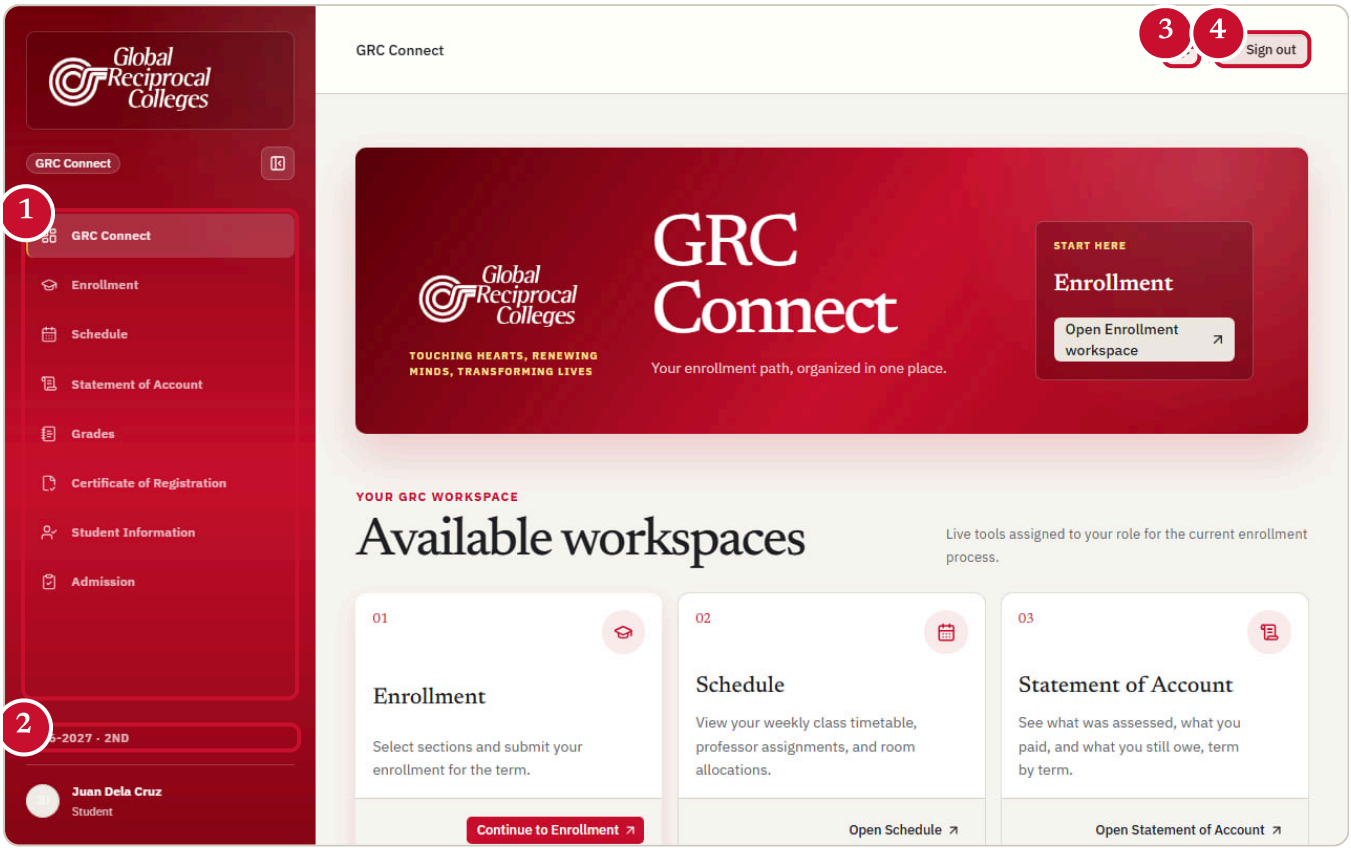

Request a reset code from the sign-in page with Forgot password?

1. On the sign-in page, select **Forgot password?**.
2. Enter your email address and select **Send reset code**.
3. Open the email, then enter the 6-digit code and your new password.
   The reset code works once and expires after an hour.
4. Sign in with the new password.

> **Good to know**
>
> Resetting your password signs you out everywhere. There is no change-password page inside the portal, so use this same route any time you want a new password.

Finding your way around the portal

After you sign in you land on **GRC Connect**, your home page. The menu on the left lists only the pages your role can use. The top bar holds your notifications and **Sign out**.

The portal home page for a student. Other roles see their own pages in the same layout.

1. **Menu**: the pages for your role. Select one to open it.
2. **Current term**: the school year and semester everything on screen refers to.
3. **Notifications**: the bell at the top. A red number means you have unread messages.
4. **Sign out**: always sign out on a shared computer.

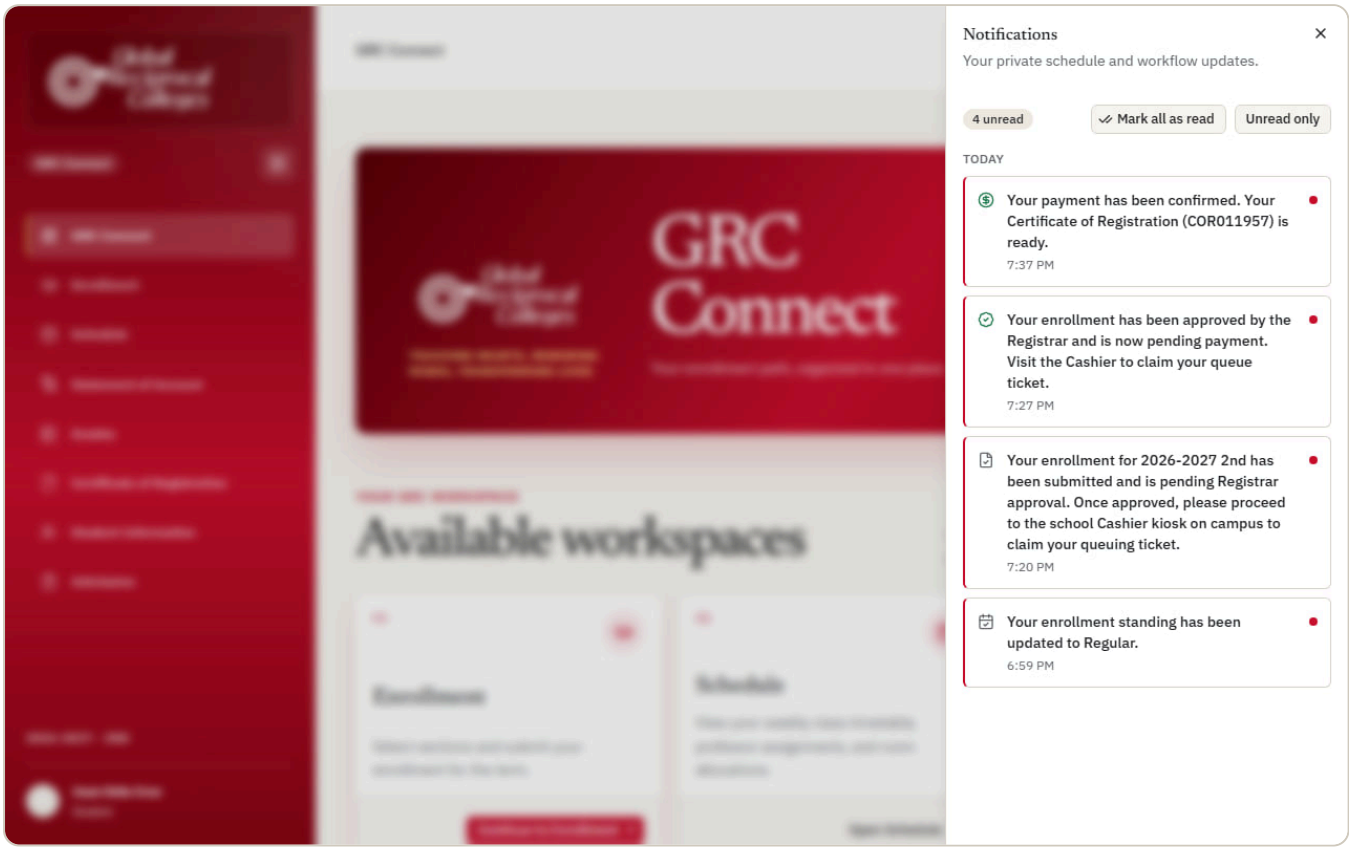

The small square next to the **GRC Connect** label collapses the menu to give the page more room.

User guide in the top bar opens this guide at the chapter for your role. On a phone it is at the bottom of the menu.

> **Good to know**
>
> If you see No active academic term, the Registrar Head has not opened a school year and semester yet. Most enrollment pages stay empty until then.

Notifications

The system tells you when something needs you or has changed: a schedule is published, an enrollment is approved, a request is returned. Select the bell to read them.

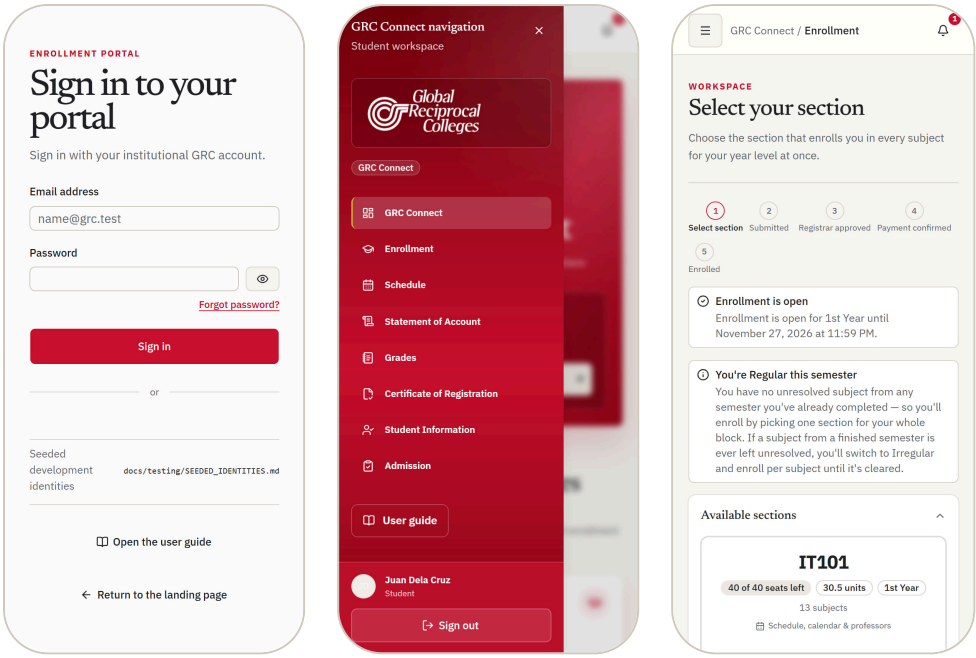

The notifications panel.

- Select a message to open it and mark it as read.
- Select **Mark all as read** to clear the red number.
- Select **Unread only** to hide messages you have already read.

Using GRC Connect on your phone

Every page works on a phone. The menu moves behind the button at the top left, and tables turn into stacked cards so you never have to scroll sideways.

Sign in, open the menu, and use a page on a phone.

Words you will see

Academic term	One school year and semester, for example 2026-2027 1st semester.
Section	One class of a subject, with its own days, time, room and teacher.
Block	The set of sections a regular student takes together in one semester.
Regular student	A student who follows the full block for their year level and semester.
Irregular student	A student who chooses subjects one by one, for example after a back subject or a credited subject. Their enrollment also goes to the Program Head for approval.
Prospectus	Every subject in a student's curriculum, with the grade earned so far.
Units	The credit value of a subject. Tuition is based on the units enrolled.
Assessment	The amount a student must pay for the term, built from tuition and fees.
Queue number	The ticket that tells the Cashier when it is your turn to pay.
Certificate of Registration (COR)	The document that proves you are enrolled. It is available once the Cashier confirms payment.

When something goes wrong

The email or password you entered was not recognized	Check the email and password, then try again. If you are not sure of the password, use **Forgot password?**.
Too many attempts	Wait a few minutes before you try again.
The code did not arrive	Check your spam folder, then select **Resend code**.
This verification code is invalid or expired	Select **Resend code** and use the newest email.
No GRC account was found for this Google email	Contact Admission or the Registrar's Office to have your account created.
Your session cannot be restored after refresh on this browser	Your browser is blocking site storage. Allow it for this site, or sign in again after each refresh.
A page is empty	Check the current term at the bottom of the menu. Most pages wait for the Registrar Head to open the school year and semester.

> **Tip**
> If none of this helps, contact the office that handles your request: Admission for accounts, the Program Head for schedules, the Registrar for approvals and records, Accounting for payments.

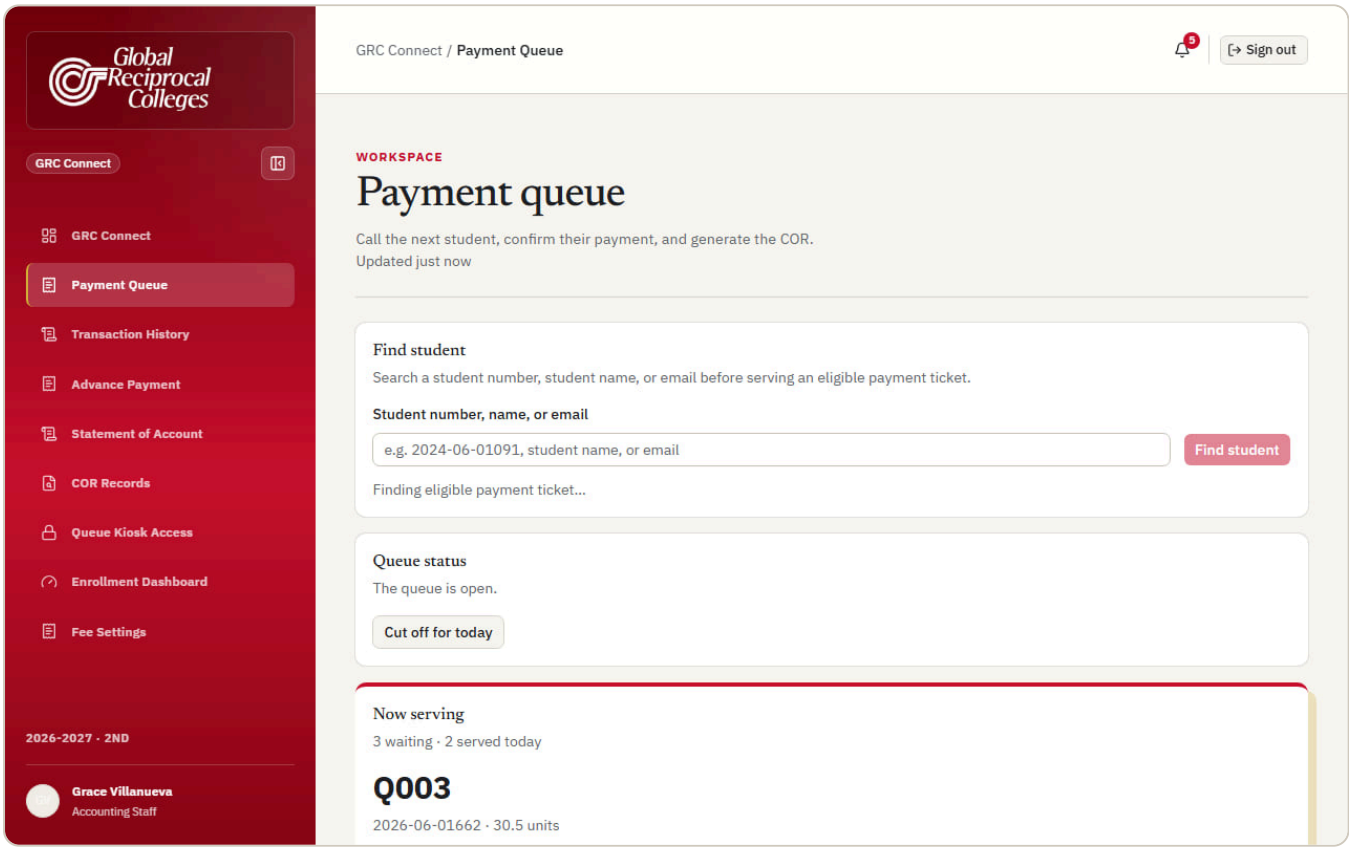

Accounting Staff

Accounting Staff act as the Cashier. You call students from the queue, confirm the payment they hand over, and the system completes their enrollment and creates the Certificate of Registration. You also record advance payments, read statements of account and maintain the fee schedule. You cannot change academic records or the Registrar's decisions.

Your menu has eight pages: Payment Queue, Transaction History, Advance Payment, Statement of Account, COR Records, Queue Kiosk Access, Enrollment Dashboard and Fee Settings.

Payment Queue

Students whose enrollment the Registrar approved take a queue number at the Cashier kiosk. Freshmen and transferees receive theirs by email before they pay. You see every ticket here in the order it was issued.

The payment queue: status, now serving, waiting and served today.

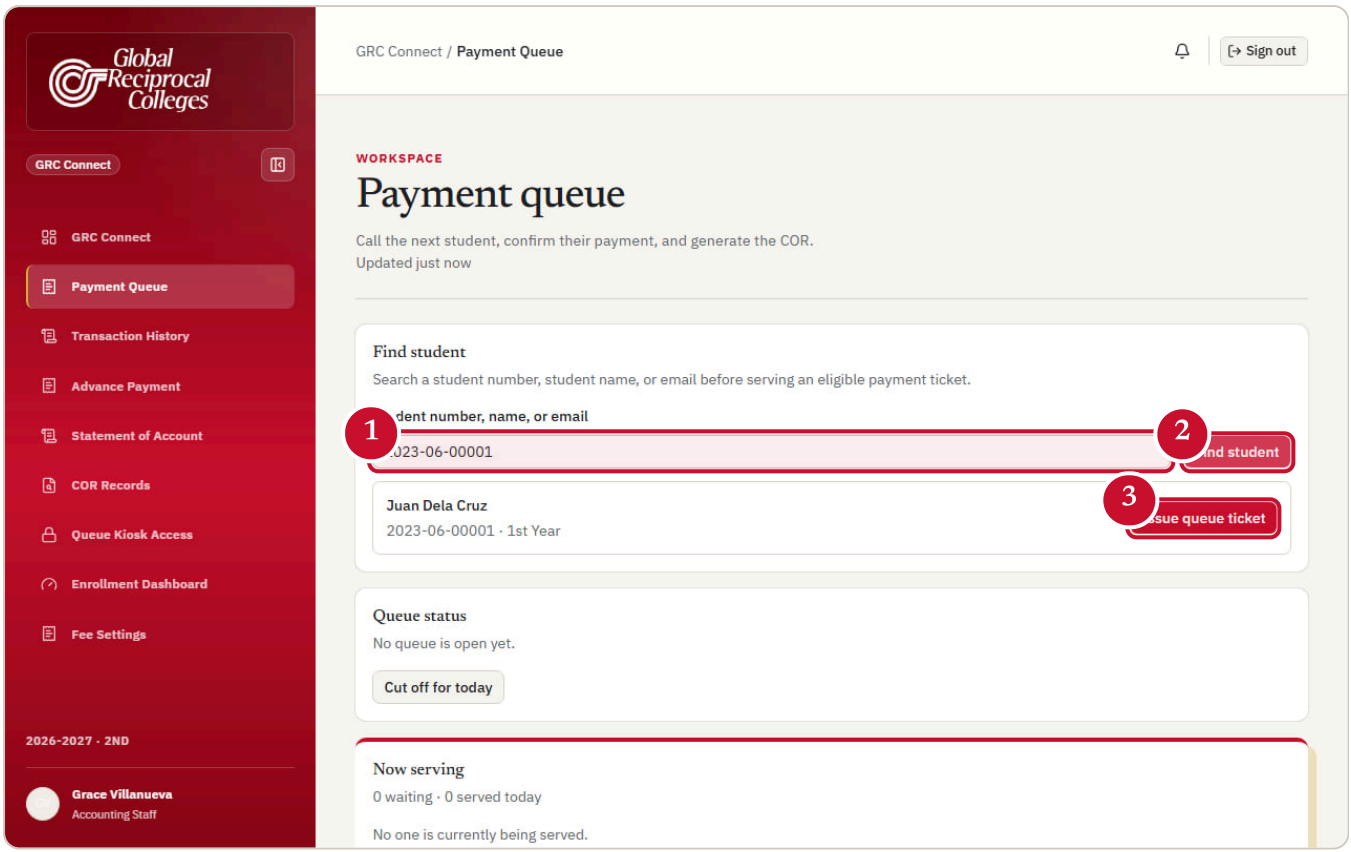

Queue status says whether the queue is open. **Cut off for today** stops new tickets; waiting tickets are saved and the queue resumes on the next service day. **Resume queue** reopens it.

Now serving shows the student at your counter and how many are waiting and served today.

Waiting lists each ticket with the student number, the amount due and **Mark priority**.

Served today lists the students you have already served.

A student who forgot to take a number can be helped from the same page.

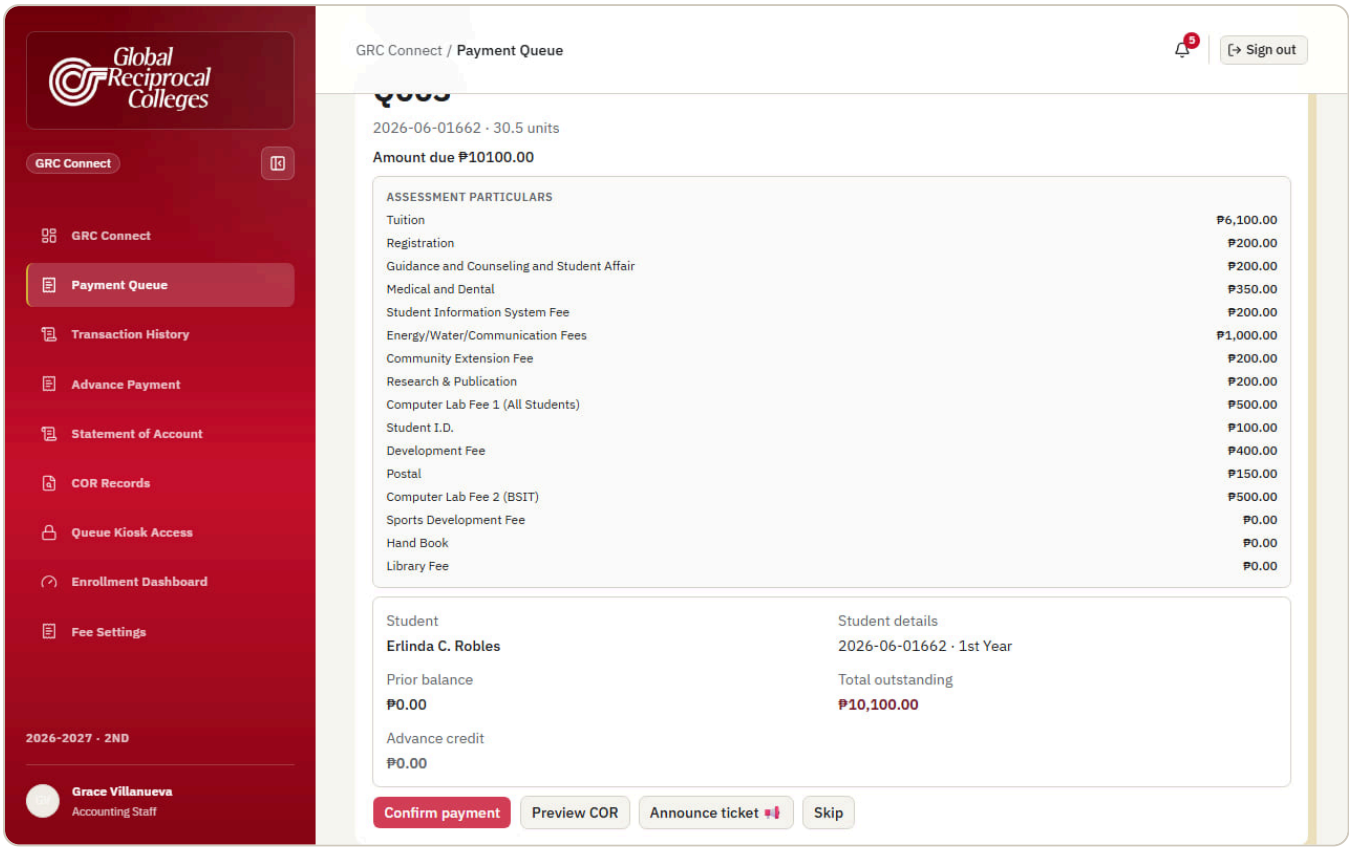

Find a student and issue a queue ticket on their behalf.

1. Type a student number, name or email under **Find student**.
2. Select **Find student**.
3. Select **Issue queue ticket**. If the student already has a ticket, select **Serve selected student** instead.

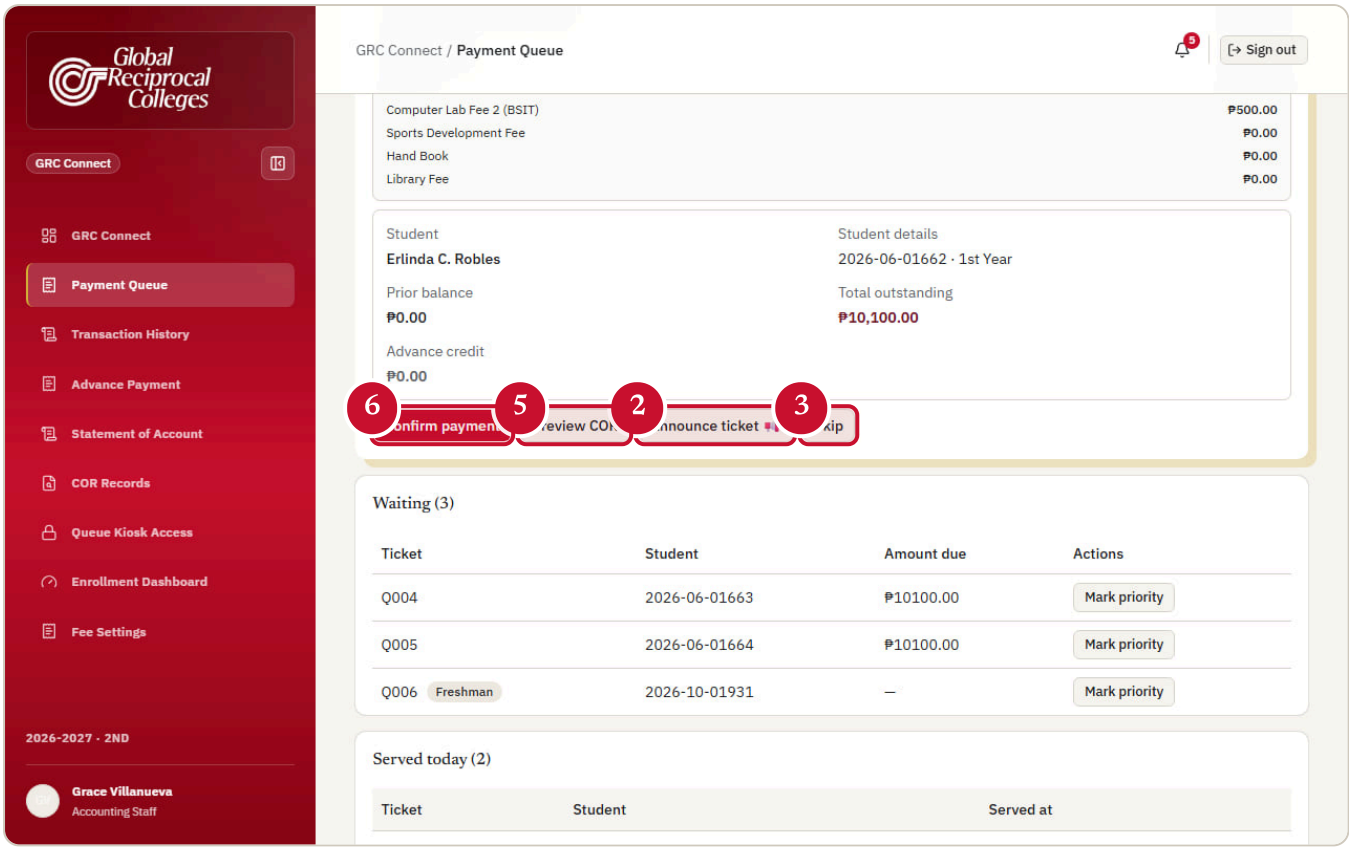

To serve the next student:

1. Select **Call next**. The next ticket moves to **Now serving**.
2. Select **Announce ticket** to call the number again.
3. Select **Skip** to put a student who is not there back in the queue.
4. Read the **Assessment Particulars**, the prior balance, the total outstanding and any advance credit.
5. Select **Preview COR** to see the Certificate of Registration before you confirm.

6 Select **Confirm payment** once the student has paid.

The student at your counter, with the assessment particulars.

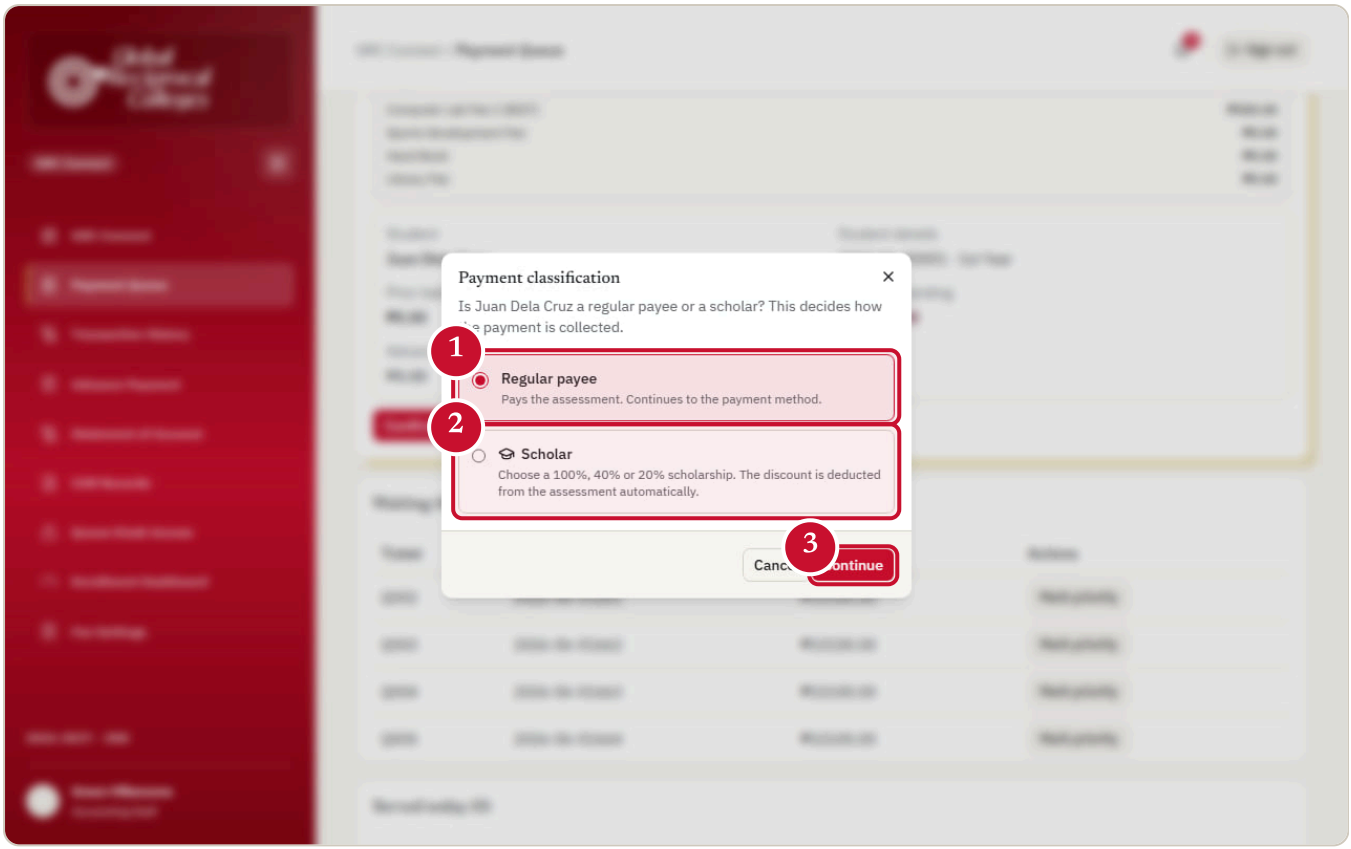

Steps 2, 3, 5 and 6: the buttons under the assessment.

A window then asks for the payment, in two steps.

1. Choose **Regular payee**.

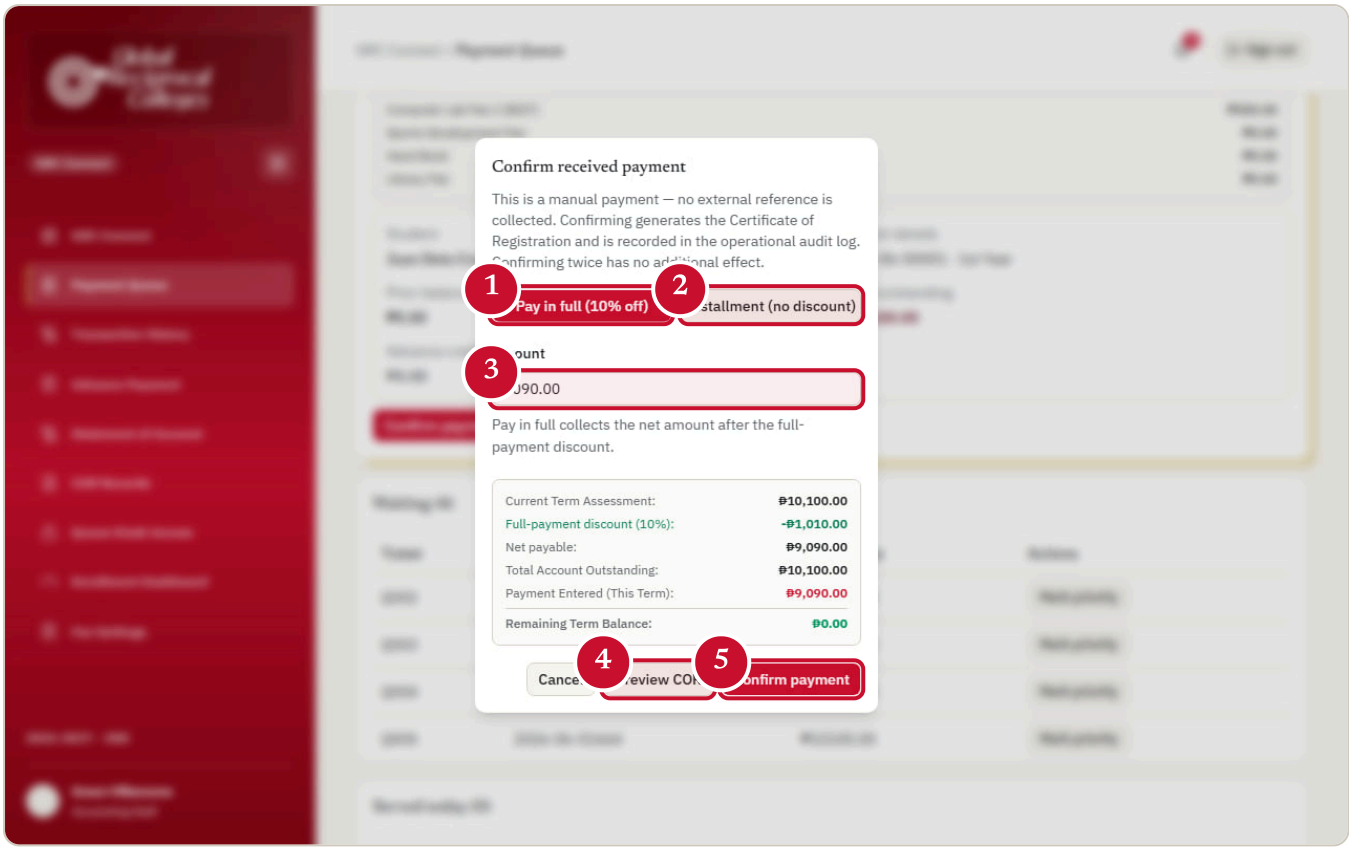

2. Or choose **Scholar** and the scholarship. A scholarship discount is deducted from the assessment automatically.

3. Select **Continue**.

First choose whether the student is a regular payee or a scholar.

1. Choose **Pay in full**. A full-payment discount applies if the Registrar Head has one active.
2. Or choose **Installment**.
3. Check the **Amount**.
4. Select **Preview COR** if you want to see the certificate first.
5. Select **Confirm payment**.

Confirm received payment shows the assessment and what remains.

Be careful

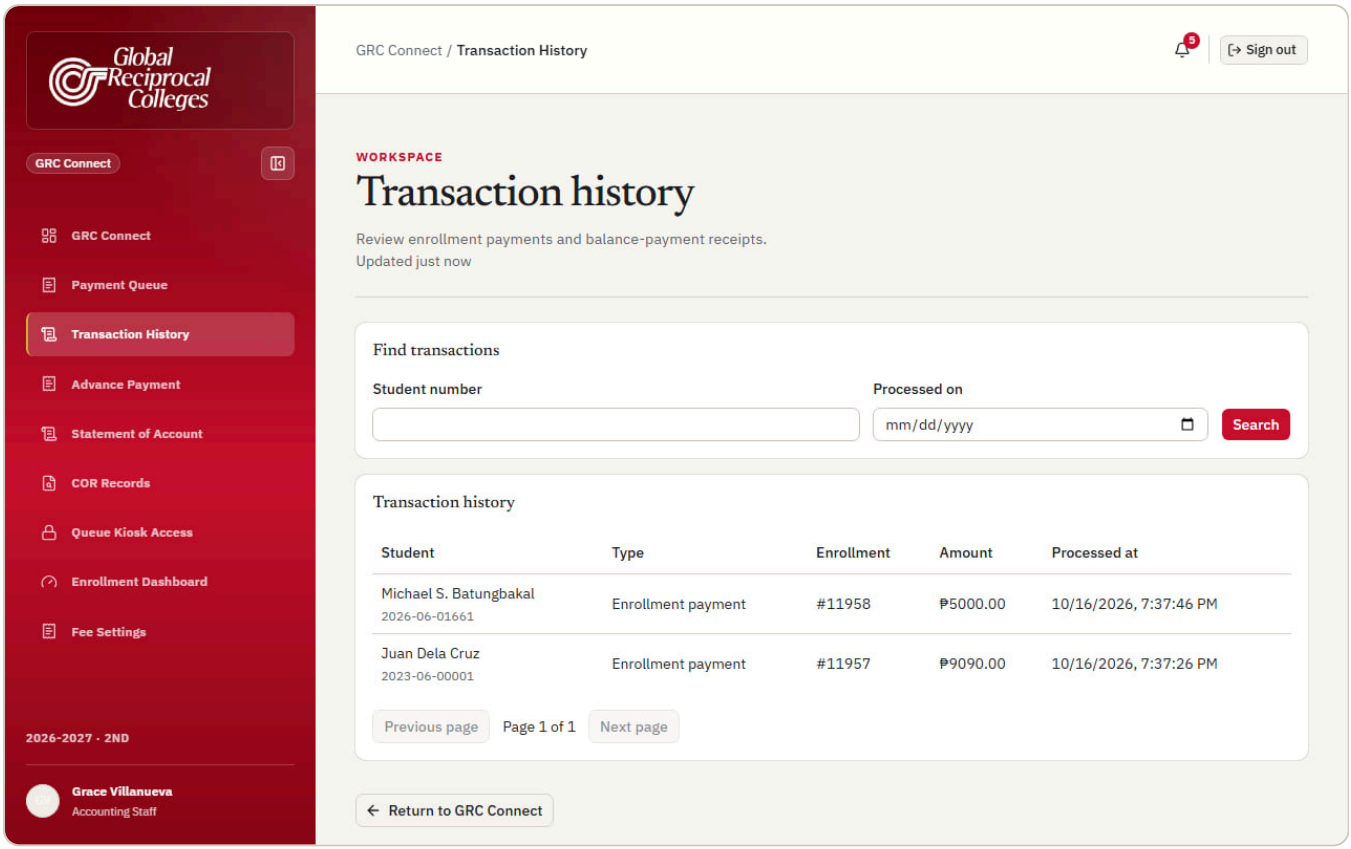

A first payment must be at least the minimum shown in the window. Confirming the same payment twice has no extra effect, so a double click cannot charge a student twice. A partial payment needs a promissory note on file only when the student carries a bill from an earlier term.

Freshmen and transferees

For a freshman or a transferee the button reads **Confirm first payment**. The money is held as credit, the enrollment goes to the Registrar for approval and the system sends the account setup email. The Registrar's approval is what enrolls them.

Transaction History

Every enrollment payment and balance payment, with the receipt.

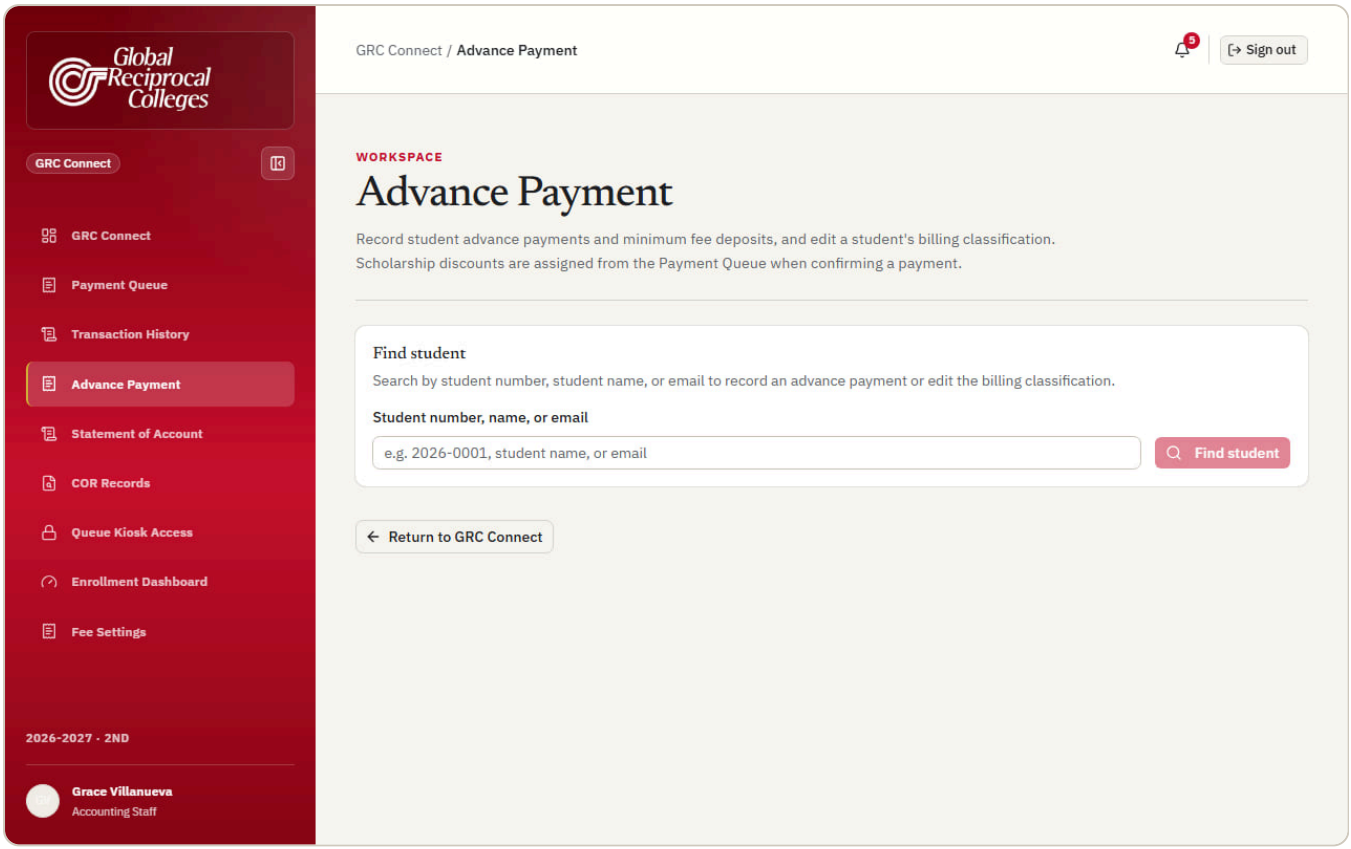

Find transactions by student number and date.

1. Enter a **Student number** or the **Processed on** date.
2. Select **Search**.
3. Read each transaction: **Enrollment payment** or **Balance payment**.

Advance Payment

Record a payment made before enrollment, and correct a student's billing classification.

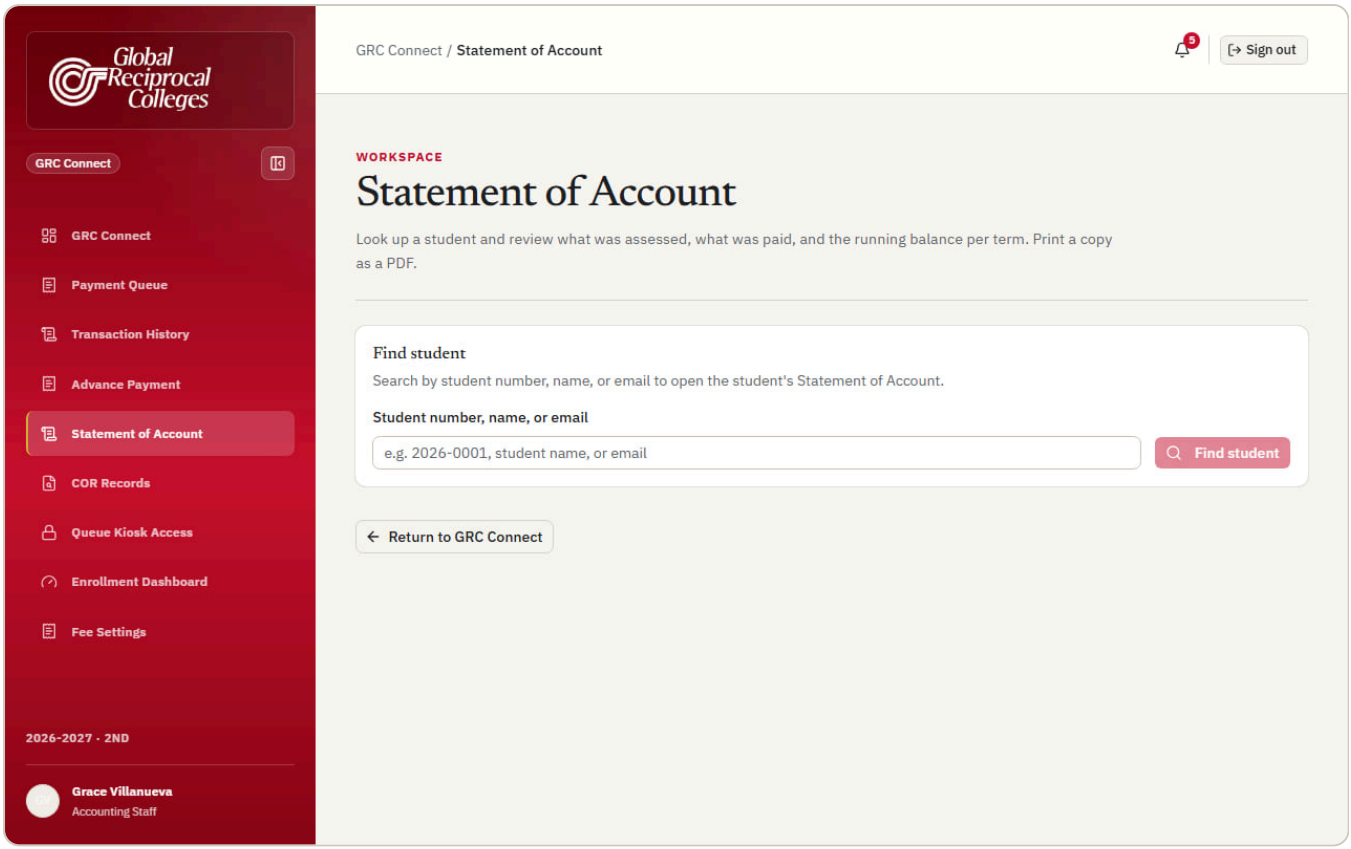

Find the student first.

1. Search a student number, name or email and select the student.
2. Read the **Advance Payment Credit**, the **Current Outstanding Balance** and the **Prior Term Balance**.
3. Select **Record Payee Advance Payment**, enter the **Advance Payment Amount (PHP)** and confirm.
4. To change whether the student is a payee or a scholar, select **Edit Classification**.

> **Good to know**
>
> Payments are used on outstanding balances first, and any excess is kept as advance credit for the next enrollment.

Statement of Account

What was assessed, what was paid and the running balance of any student, term by term.

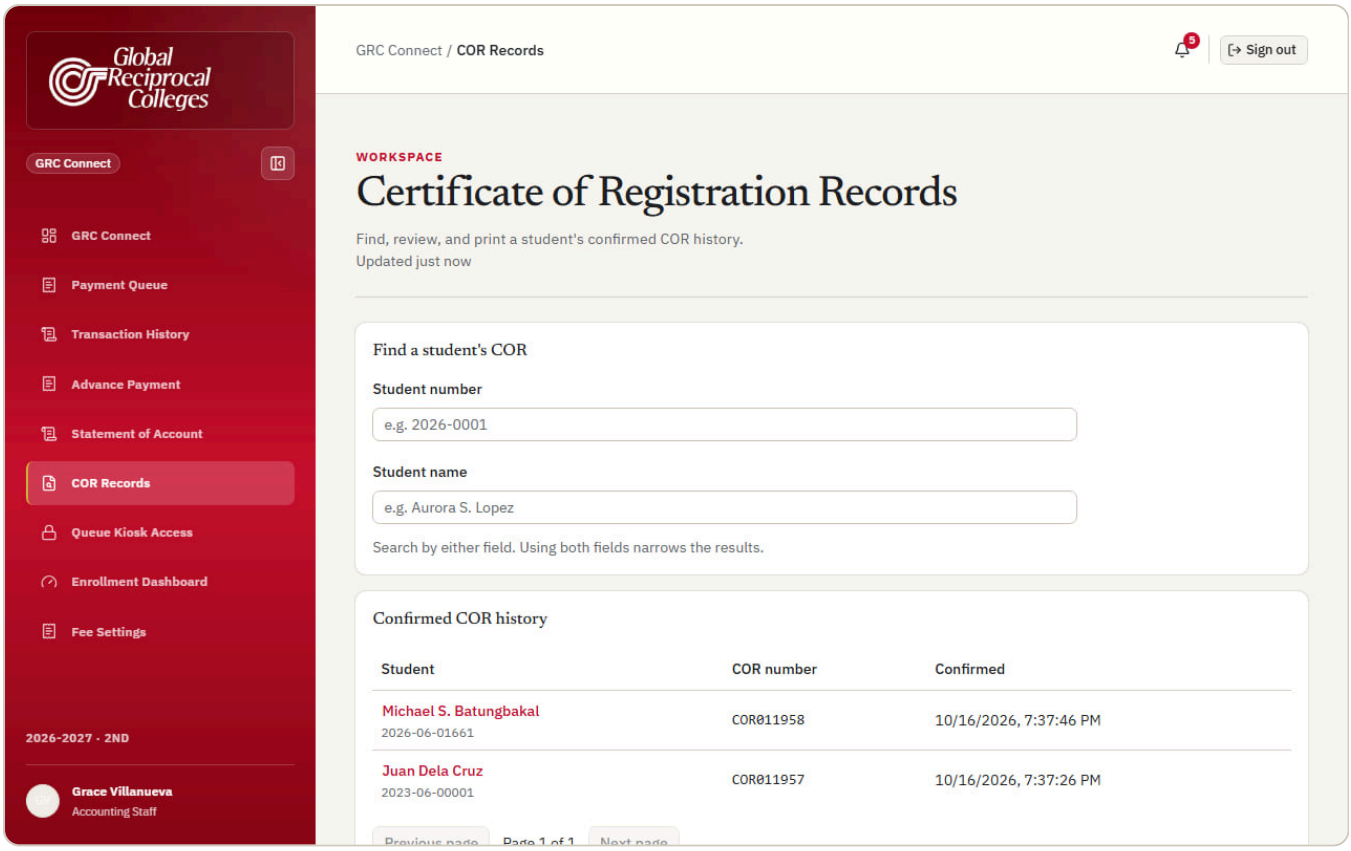

Look up a student's statement.

1. Search a student number, name or email.
2. Choose a **Term**, or **All terms**.
3. Print a copy with **Download PDF**.

COR Records

Find and print the confirmed Certificates of Registration of earlier enrollments.

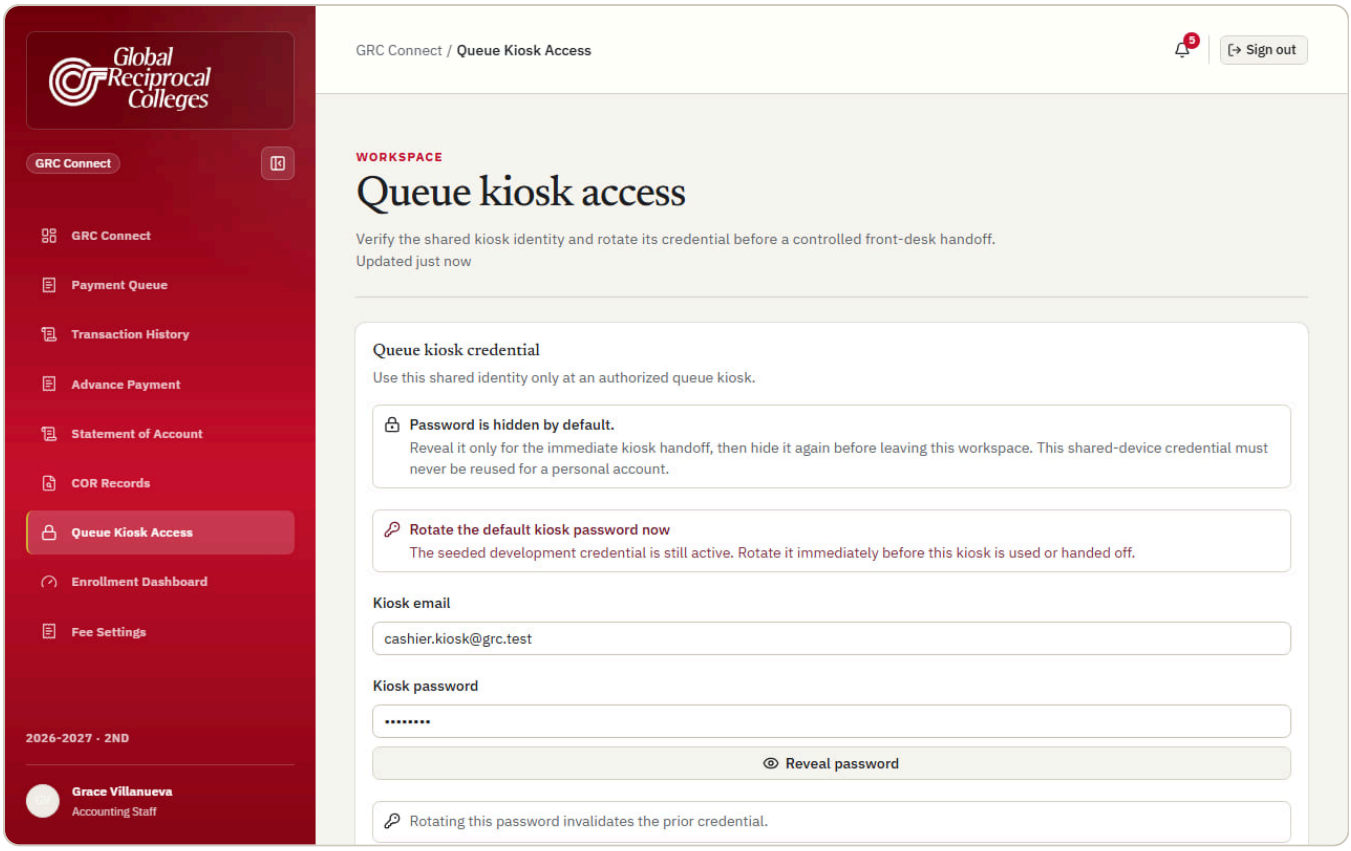

Find a student's COR.

1. Enter a **Student number**, a **Student name**, or both.
2. Open the student's **Confirmed COR history** and select **View COR**.
3. Print it or select **Download COR**.

Queue Kiosk Access

The kiosk at the Cashier is a shared device. This page shows its sign-in and lets you rotate its password.

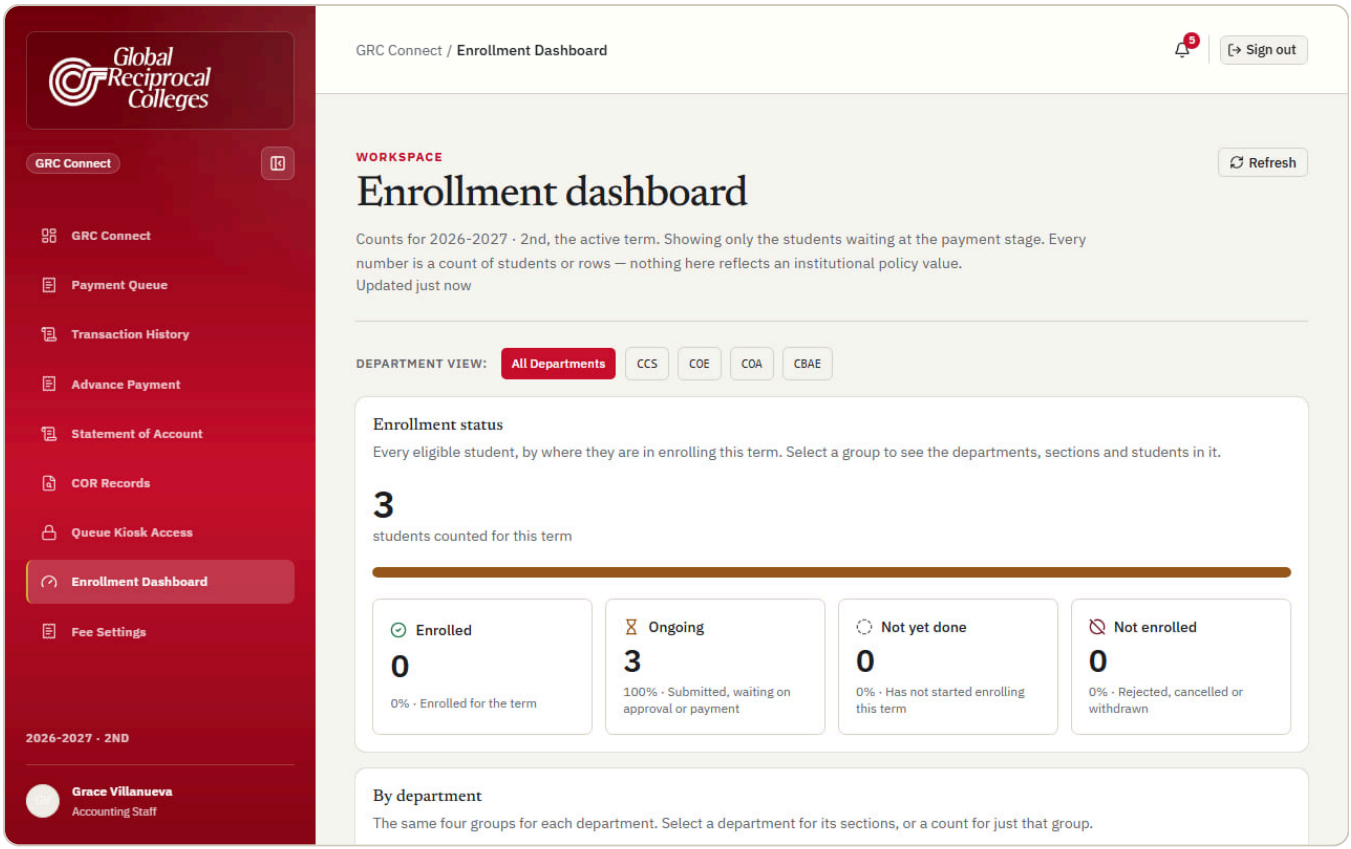

The kiosk credential.

1. Read the **Kiosk email**. The password is hidden: select **Reveal password** to show it.
2. Before a front-desk handoff, enter a **New kiosk password** of at least 8 characters and select **Rotate password**.
3. Confirm. Every active kiosk signs out immediately, and its staff must sign in again with the new password.

> **Be careful**
> If the page says the default kiosk password is still active, rotate it before the kiosk is used. Share the new password only through an approved channel.

Enrollment Dashboard

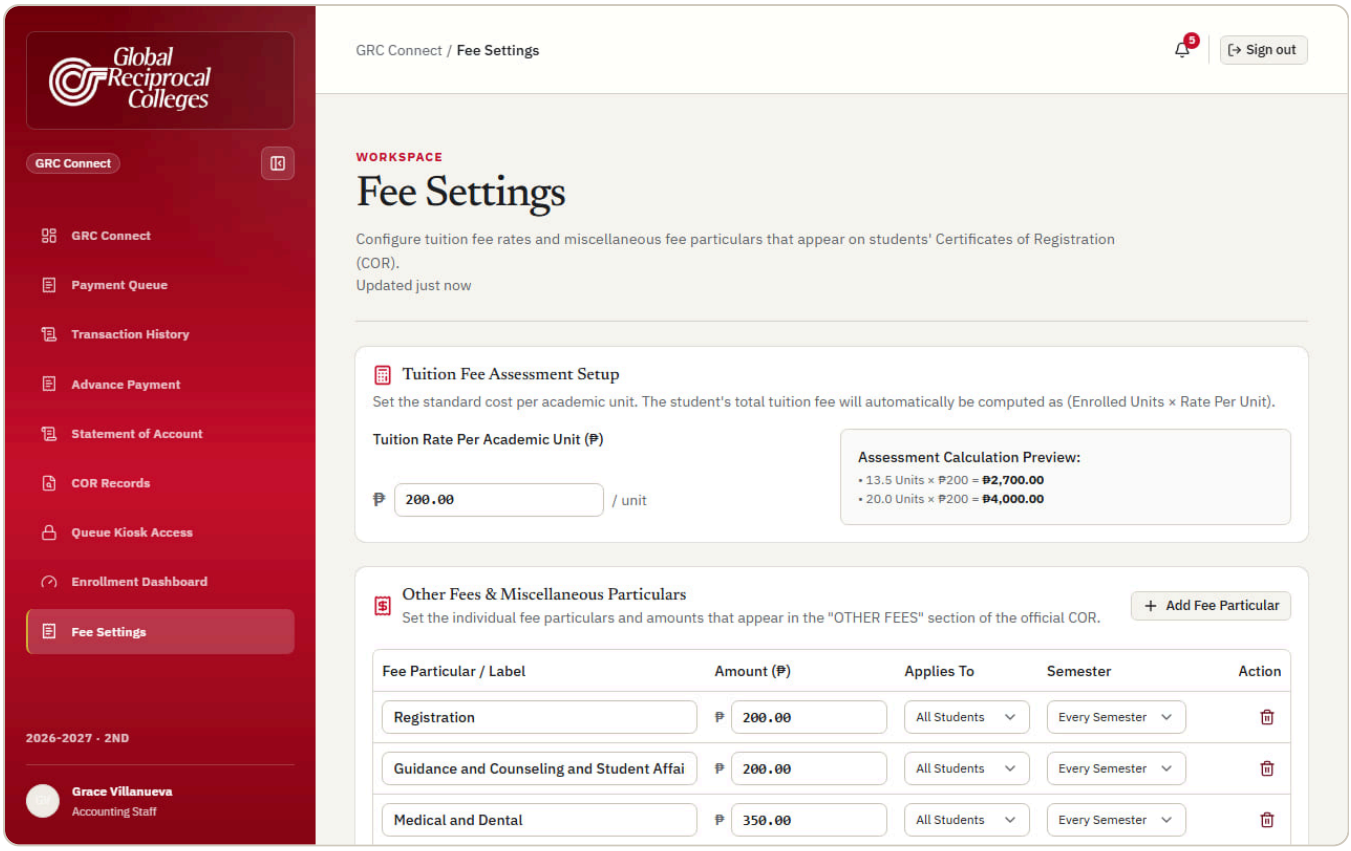

Shows only the students waiting at the payment stage.

The Enrollment Dashboard for Accounting.

Fee Settings

The tuition rate and the miscellaneous fees that appear on each student's assessment and Certificate of Registration. Every change is recorded in the audit log.

Tuition rate and fee particulars.

1. Enter the **Tuition Rate Per Academic Unit (₱)** and read the **Assessment Calculation Preview**.
2. Edit a fee, or select **Add Fee Particular** and fill in its label, amount, who it applies to and the semester.
3. Use **Remove fee** for one that no longer applies.
4. Select **Save Fee Settings**.

> **Be careful**
>
> New and regenerated assessments use the new amounts. Existing Certificates of Registration are not changed.
