Global Reciprocal Colleges

GRC Enrollment System

User manual and guide

Student edition, for Global Reciprocal Colleges

Edition 1.0, October 2026

Contents

For everyone

Getting started

Sign in, find your way around, and read the words the system uses — 9 topics

- How enrollment works, start to finish
- Signing in
- Setting up your account for the first time
- If you forget your password
- Finding your way around the portal
- Notifications
- Using GRC Connect on your phone
- Words you will see
- When something goes wrong

By role

Student

Choose your section, pay, and keep your records — 11 topics

- Your semester at a glance
- Enrollment: choose your section and submit
- After you submit
- If you are an irregular student
- Changing your subjects after you are enrolled
- Schedule
- Statement of Account
- Grades and prospectus
- Certificate of Registration
- Student Information
- Admission

Getting started

GRC Connect is where Global Reciprocal Colleges runs enrollment: schedules, subject selection, approvals, payment and records. Everyone signs in at the same page and sees only the pages that belong to their role.

This chapter applies to every role. After it, open the chapter for your own role to see its pages and how to finish each task.

How enrollment works, start to finish

Enrollment passes through several offices, in a fixed order. Knowing who has the next step tells you why a request is waiting and who to ask about it.

Registrar Head

Creates the school year and semester that starts the enrollment cycle.

Program Head

Plans the sections, rooms, capacities and teachers for each subject, then sends the schedule for approval.

Dean, then Executive Director

The Dean approves the plan or returns it with notes. The Executive Director gives the final approval and publishes it.

Student

Chooses a section for each subject and submits the enrollment.

Program Head, for irregular enrollments

Approves or rejects an irregular or overloaded enrollment of their own college before it reaches the Registrar.

Registrar Staff or Registrar Head

Approves the submitted enrollment so the student can go to payment.

Accounting Staff (the Cashier)

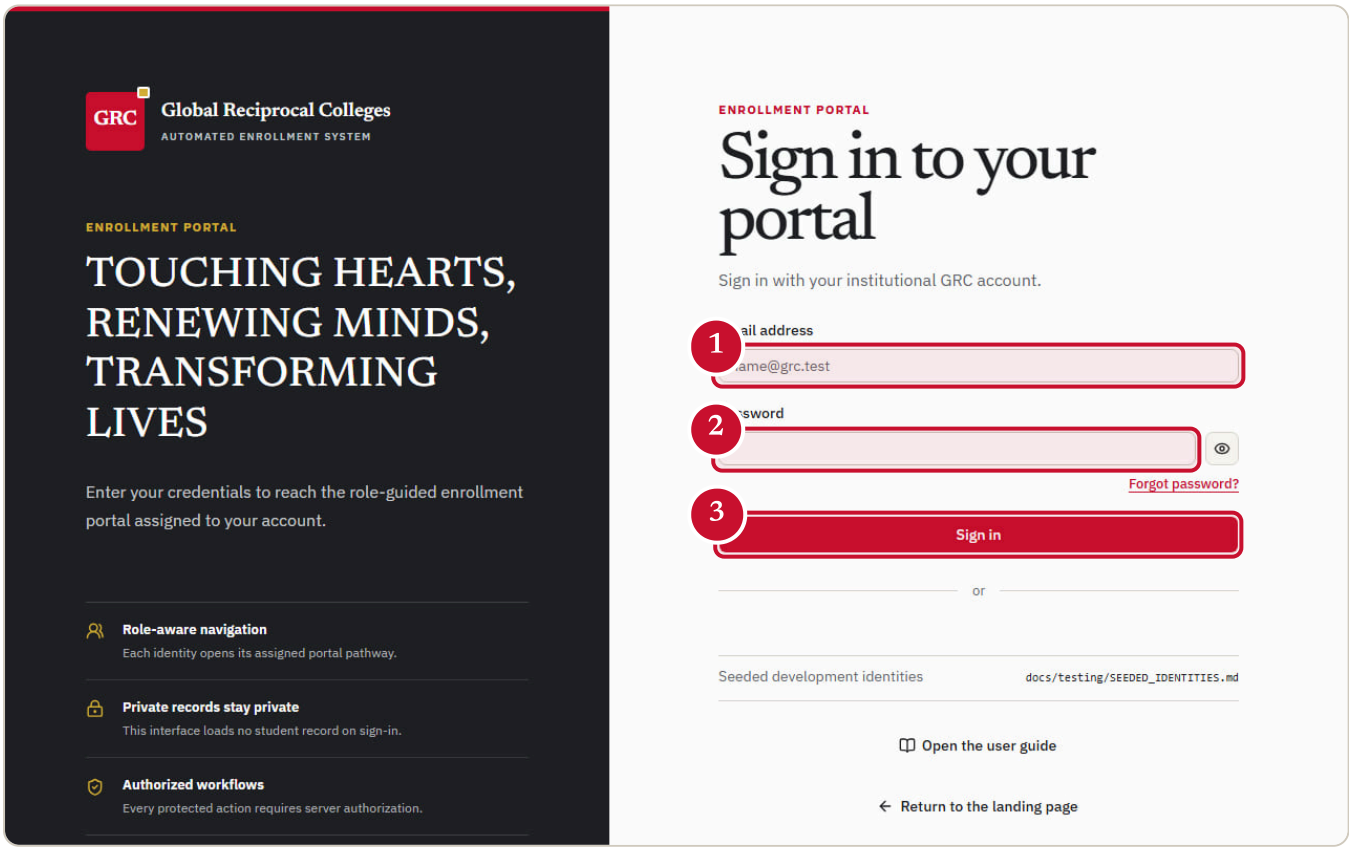

Calls the student's queue number and confirms the payment. The enrollment is then complete and the Certificate of Registration is ready.

> **Good to know**
> New freshmen and transferees pay first. Admission gives them a queue number, the Cashier confirms their first payment, and only then do they receive the email to set up their account.

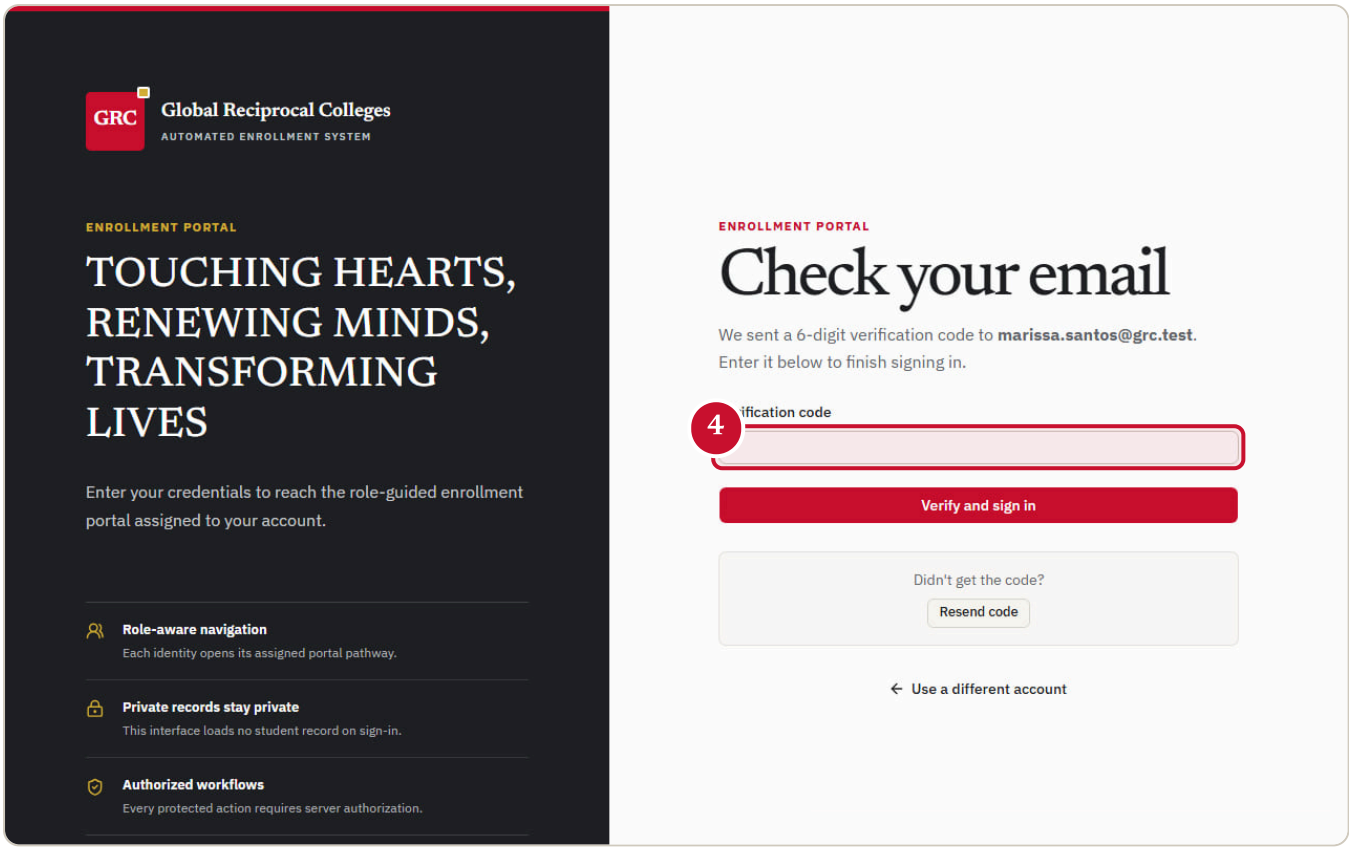

Signing in

Open the sign-in page from the **Sign in to portal** button on the home page. Use the email address your office registered for you.

1. Type your **Email address**.
2. Type your **Password**.
3. Select **Sign in**.
   You can also use Sign in with Google, if a GRC account exists for that Google email.
4. If asked, enter the 6-digit code sent to your email and select **Verify and sign in**.
   The sign-in page then says Check your email. The code works for a short time and only a few wrong attempts are allowed. Select **Resend code** if it does not arrive.

The sign-in page.

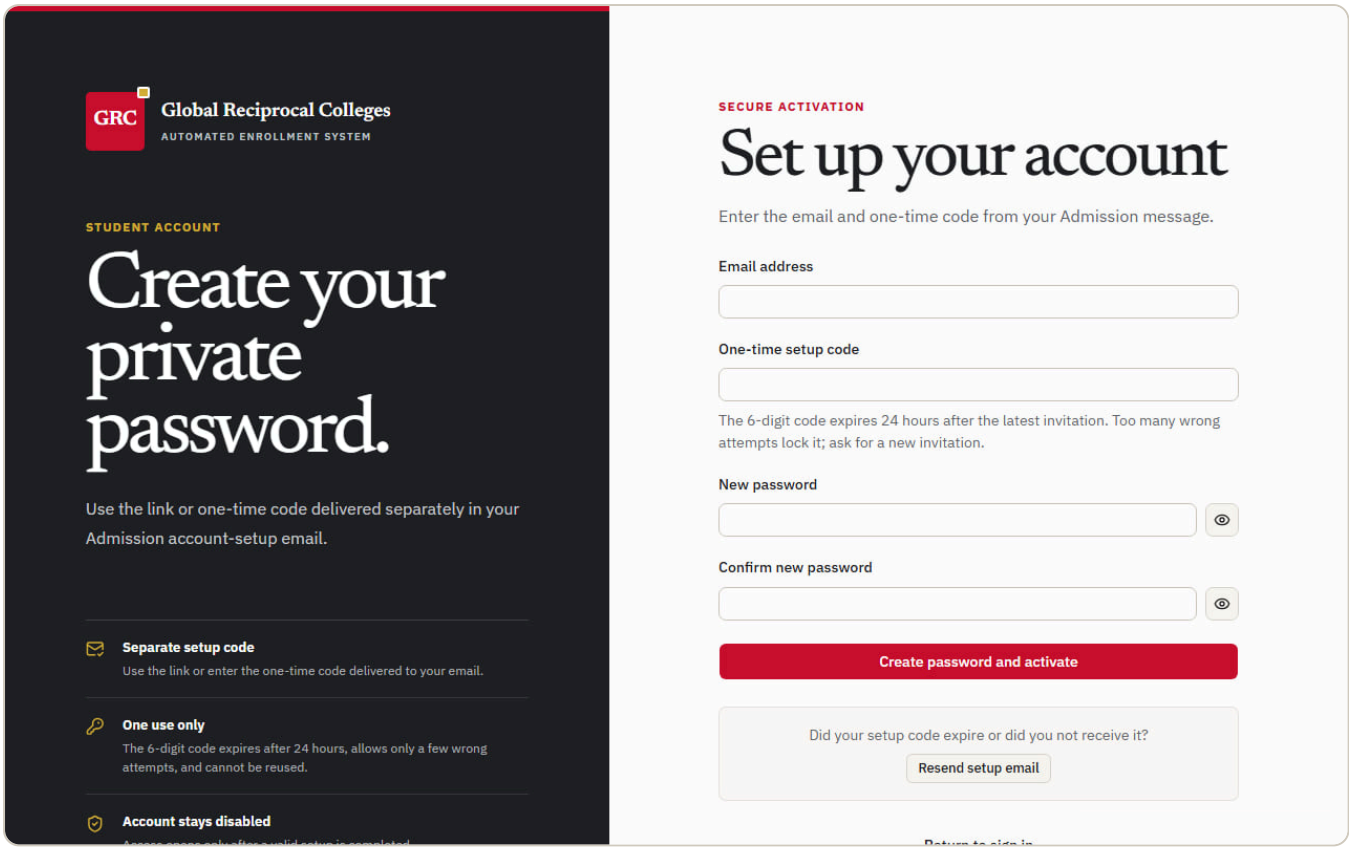

Step 4: the code step, shown when the system needs to confirm it is you.

> **Tip**
> You may not be asked for a code if you signed in a little while ago. Sign out when you use a shared computer.

Setting up your account for the first time

You do not choose your own password at first. Your office sends you an email with a 6-digit setup code. Students receive it from Admission. Professors are invited by their Program Head, and staff by the Registrar Head.

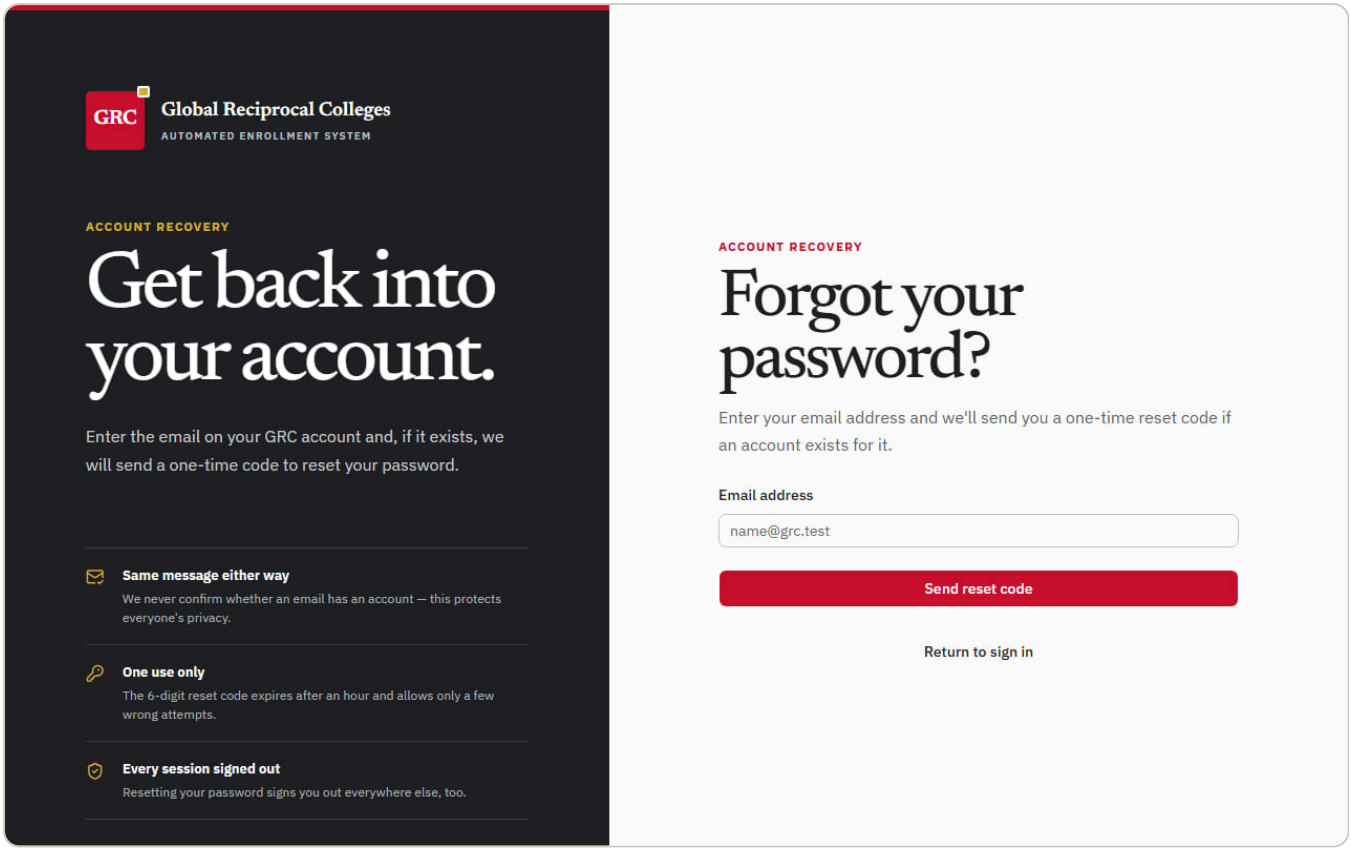

The account setup page.

1. Open the link in the email, or go to the account setup page.
2. Enter your email and the 6-digit **setup code**.
3. Create your password, then type it again to confirm it.
   Use at least 8 characters with a lowercase letter, an uppercase letter, a number and a symbol.
4. Select **Create password and activate**, then sign in with your new password.

> **Be careful**
> The setup code can be used once and expires after 24 hours. A student whose code expired can select **Resend setup email** on the same page. Professors and staff ask the office that invited them to send a new one.

If you forget your password

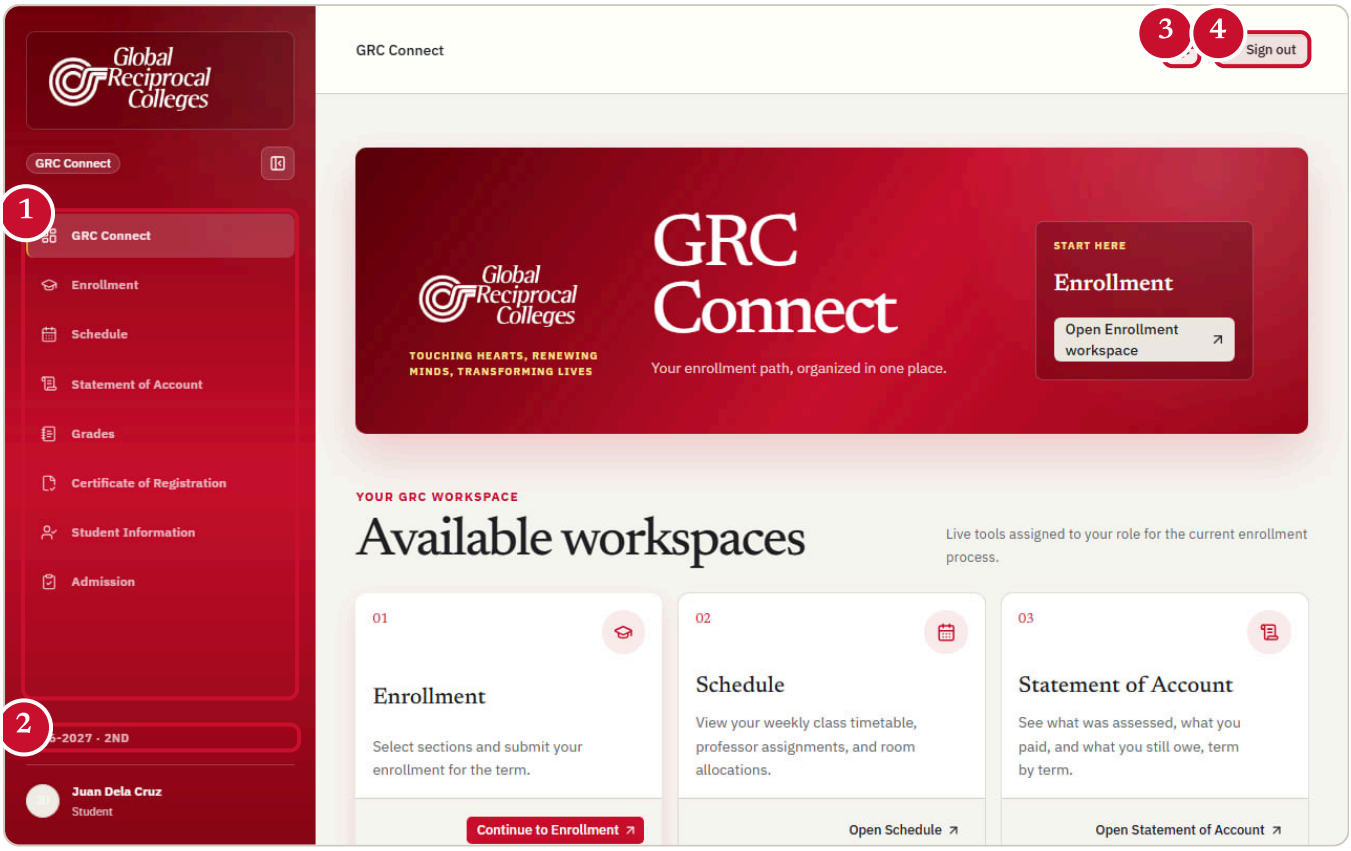

Request a reset code from the sign-in page with Forgot password?

1. On the sign-in page, select **Forgot password?**.
2. Enter your email address and select **Send reset code**.
3. Open the email, then enter the 6-digit code and your new password.
   The reset code works once and expires after an hour.
4. Sign in with the new password.

> **Good to know**
>
> Resetting your password signs you out everywhere. There is no change-password page inside the portal, so use this same route any time you want a new password.

Finding your way around the portal

After you sign in you land on **GRC Connect**, your home page. The menu on the left lists only the pages your role can use. The top bar holds your notifications and **Sign out**.

The portal home page for a student. Other roles see their own pages in the same layout.

1. **Menu**: the pages for your role. Select one to open it.
2. **Current term**: the school year and semester everything on screen refers to.
3. **Notifications**: the bell at the top. A red number means you have unread messages.
4. **Sign out**: always sign out on a shared computer.

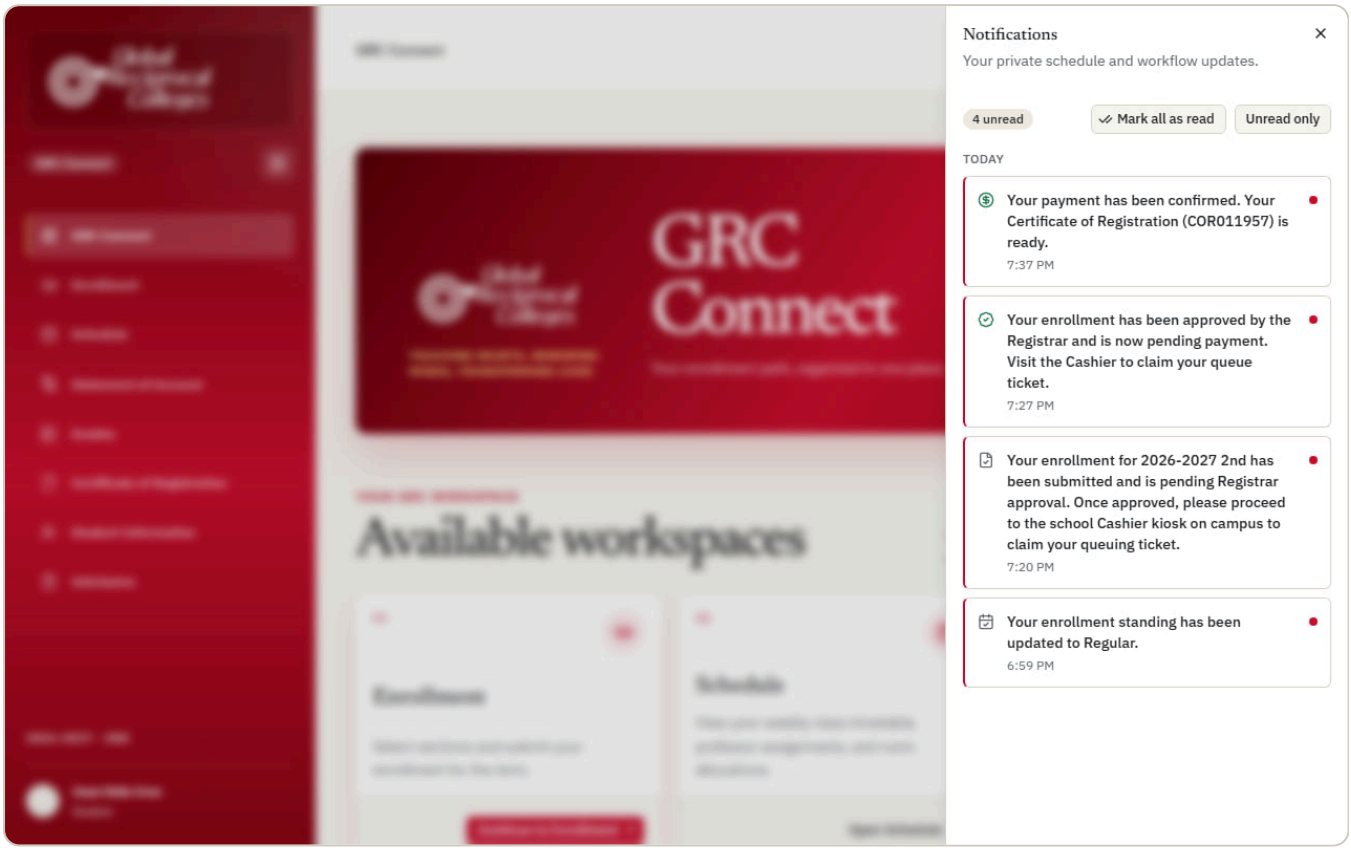

The small square next to the **GRC Connect** label collapses the menu to give the page more room.

User guide in the top bar opens this guide at the chapter for your role. On a phone it is at the bottom of the menu.

> **Good to know**
>
> If you see No active academic term, the Registrar Head has not opened a school year and semester yet. Most enrollment pages stay empty until then.

Notifications

The system tells you when something needs you or has changed: a schedule is published, an enrollment is approved, a request is returned. Select the bell to read them.

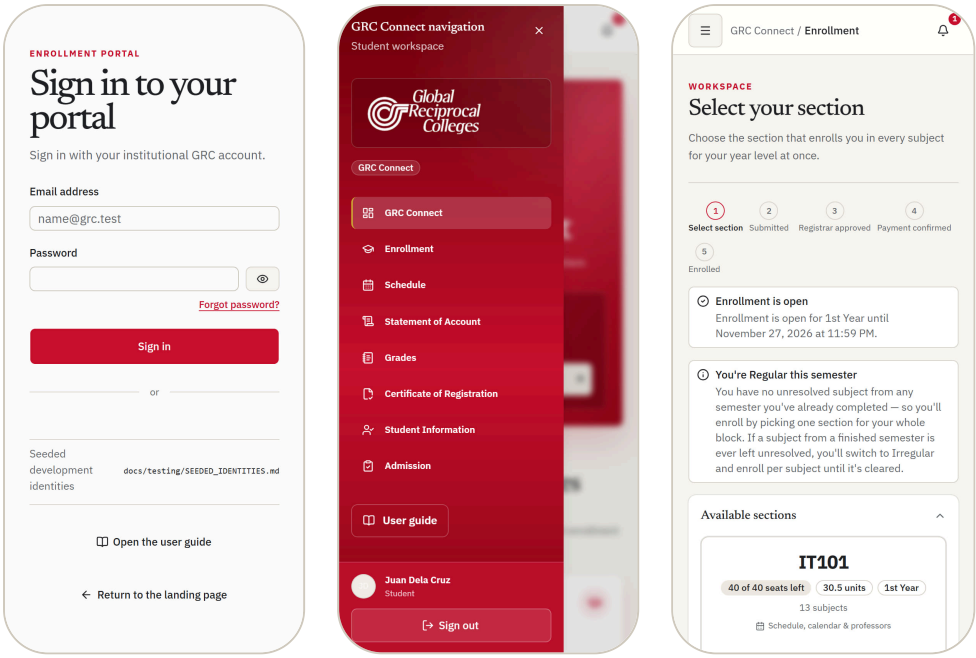

The notifications panel.

- Select a message to open it and mark it as read.
- Select **Mark all as read** to clear the red number.
- Select **Unread only** to hide messages you have already read.

Using GRC Connect on your phone

Every page works on a phone. The menu moves behind the button at the top left, and tables turn into stacked cards so you never have to scroll sideways.

Sign in, open the menu, and use a page on a phone.

Words you will see

Academic term	One school year and semester, for example 2026-2027 1st semester.
Section	One class of a subject, with its own days, time, room and teacher.
Block	The set of sections a regular student takes together in one semester.
Regular student	A student who follows the full block for their year level and semester.
Irregular student	A student who chooses subjects one by one, for example after a back subject or a credited subject. Their enrollment also goes to the Program Head for approval.
Prospectus	Every subject in a student's curriculum, with the grade earned so far.
Units	The credit value of a subject. Tuition is based on the units enrolled.
Assessment	The amount a student must pay for the term, built from tuition and fees.
Queue number	The ticket that tells the Cashier when it is your turn to pay.
Certificate of Registration (COR)	The document that proves you are enrolled. It is available once the Cashier confirms payment.

When something goes wrong

The email or password you entered was not recognized	Check the email and password, then try again. If you are not sure of the password, use **Forgot password?**.
Too many attempts	Wait a few minutes before you try again.
The code did not arrive	Check your spam folder, then select **Resend code**.
This verification code is invalid or expired	Select **Resend code** and use the newest email.
No GRC account was found for this Google email	Contact Admission or the Registrar's Office to have your account created.
Your session cannot be restored after refresh on this browser	Your browser is blocking site storage. Allow it for this site, or sign in again after each refresh.
A page is empty	Check the current term at the bottom of the menu. Most pages wait for the Registrar Head to open the school year and semester.

> **Tip**
> If none of this helps, contact the office that handles your request: Admission for accounts, the Program Head for schedules, the Registrar for approvals and records, Accounting for payments.

Student

As a student you use GRC Connect to enroll each semester, follow the approval and payment of your enrollment, see your class schedule, read your grades and print your Certificate of Registration.

Your menu has seven pages: Enrollment, Schedule, Statement of Account, Grades, Certificate of Registration, Student Information and Admission.

Your semester at a glance

- **You**
  Open **Enrollment** when it opens for your year level, choose your section and submit.
- **Registrar**
  Approves your enrollment. If you are an irregular student, your Program Head approves it first.
- **You**
  Take your queue number at the Cashier and wait for your turn.
- **Cashier**
  Confirms your payment. You are now enrolled.
- **You**
  Open **Certificate of Registration** and **Schedule** to print or save them.

> **Tip**
> The row of five steps at the top of Enrollment always shows where you are: Select section, Submitted, Registrar approved, Payment confirmed, Enrolled.

Enrollment: choose your section and submit

Enrollment opens for your year level on a date set by the Registrar, and closes on a deadline. The page tells you both. If the page says enrollment is not open yet, check back on the opening date.

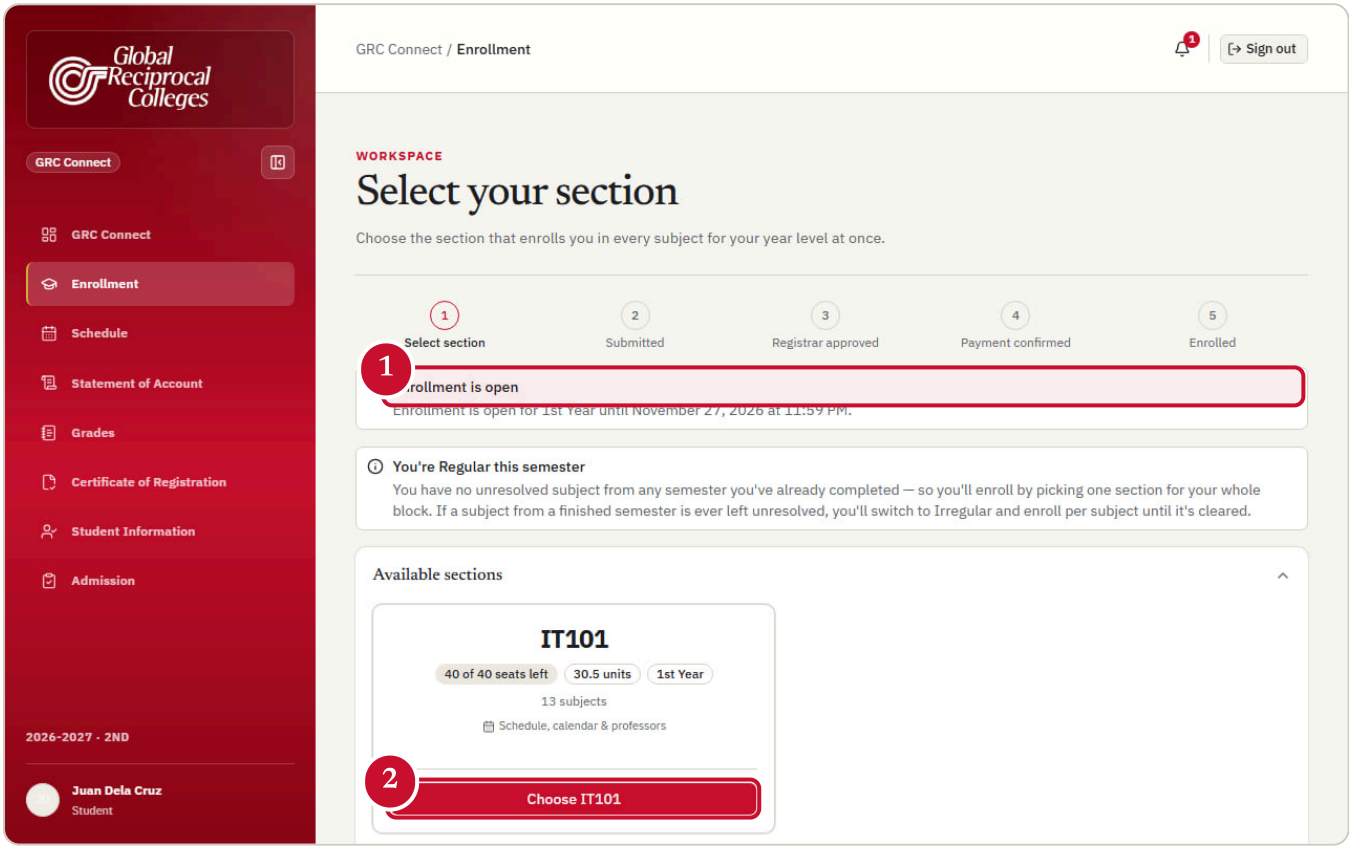

1. Read the **Enrollment is open** message.
   It names your year level and the closing date and time.

2. Look at the section offered to you and select **Choose** next to it.
   A regular student takes one section for the whole block. The page shows the seats left and the total units.

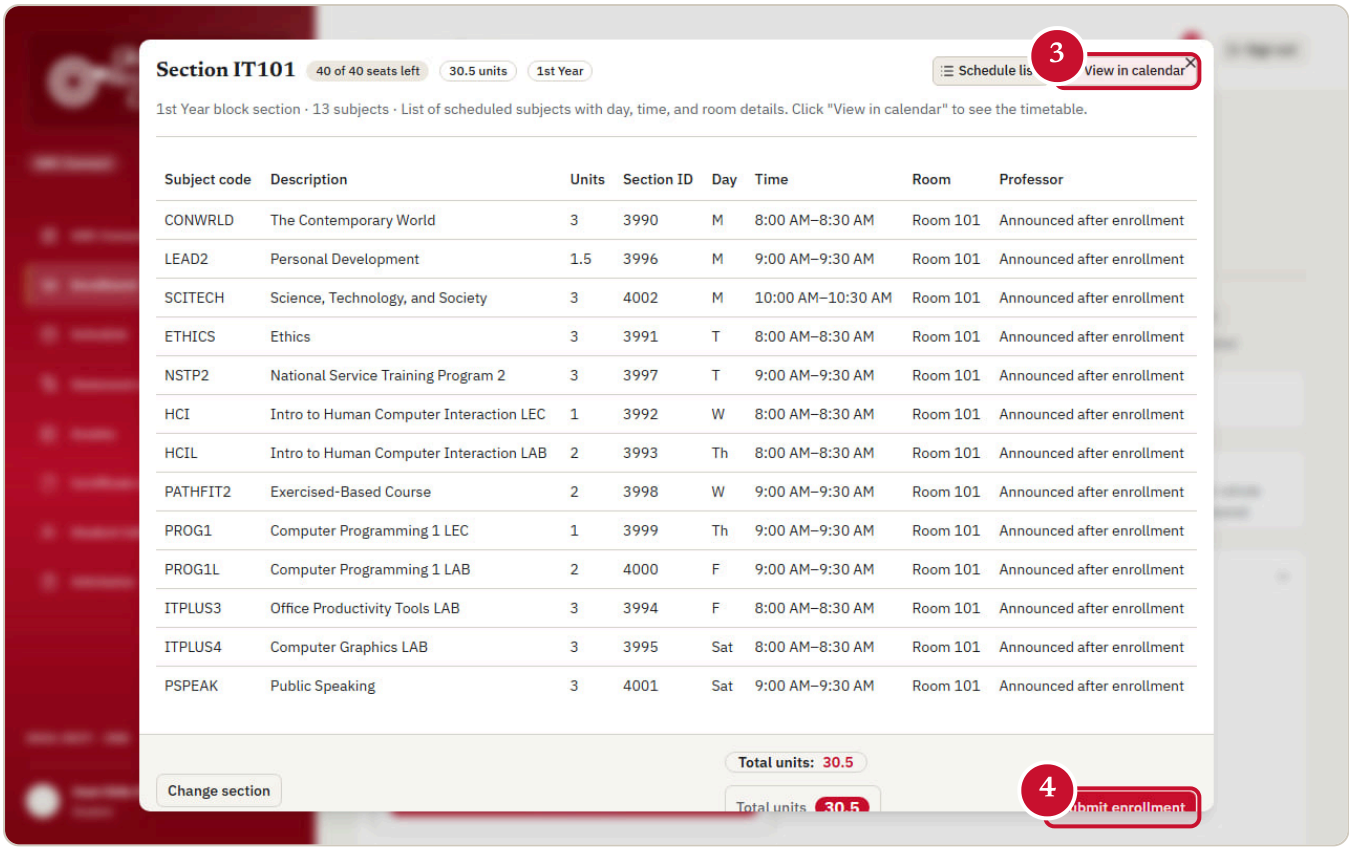

3. Check every subject, day, time and room in the window that opens.
   Select **View in calendar** to see the week as a timetable.

4. Select **Submit enrollment**.

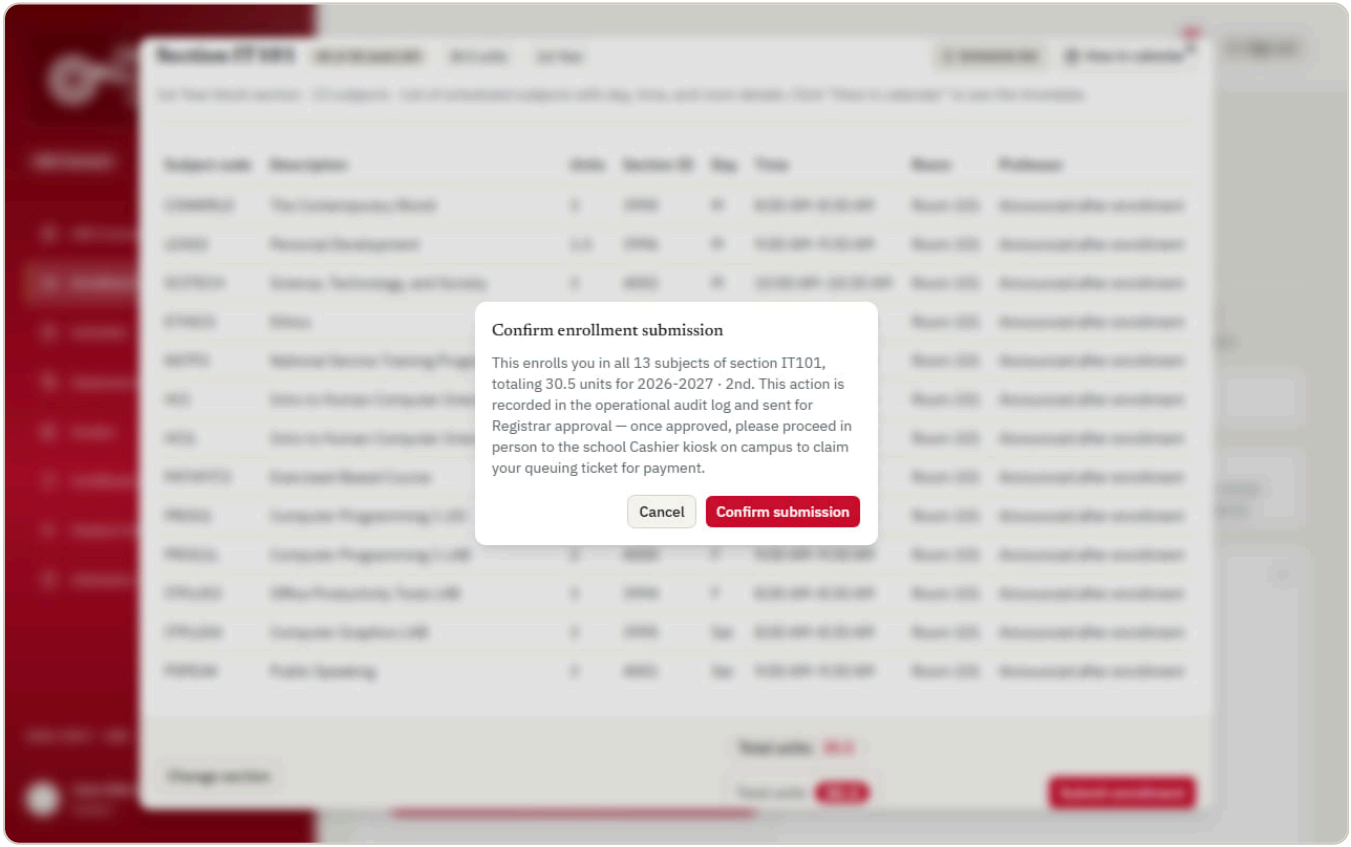

5. Select **Confirm submission** to send it to the Registrar.

Steps 1 and 2: the Enrollment page while enrollment is open for your year level.

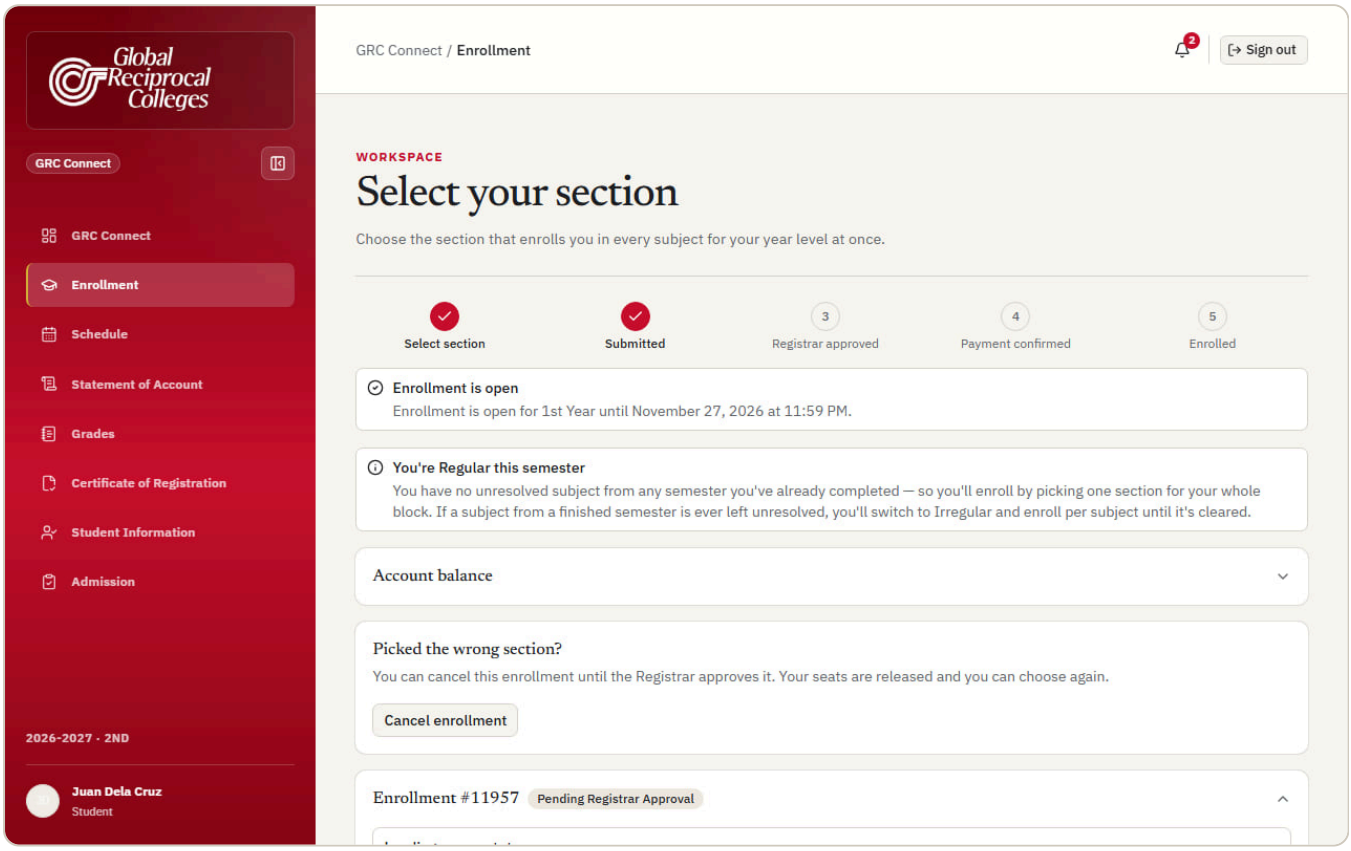

Steps 3 and 4: the section window lists every subject of the block.

Step 5: confirm to send the enrollment to the Registrar.

> **Good to know**
> Professors may show as Announced after enrollment until your enrollment is complete.

After you submit

After submitting, the enrollment waits for the Registrar.

Pending Registrar Approval: the Registrar is reviewing your enrollment. You will get a notification when it is approved or returned.

Cancel enrollment: until the Registrar approves, you can cancel from the card named Picked the wrong section?. Your seats are released and you can choose again.

Cashier queue: once the Registrar approves, the page shows your queue number and who is being served. Keep this page open and visible near your turn.

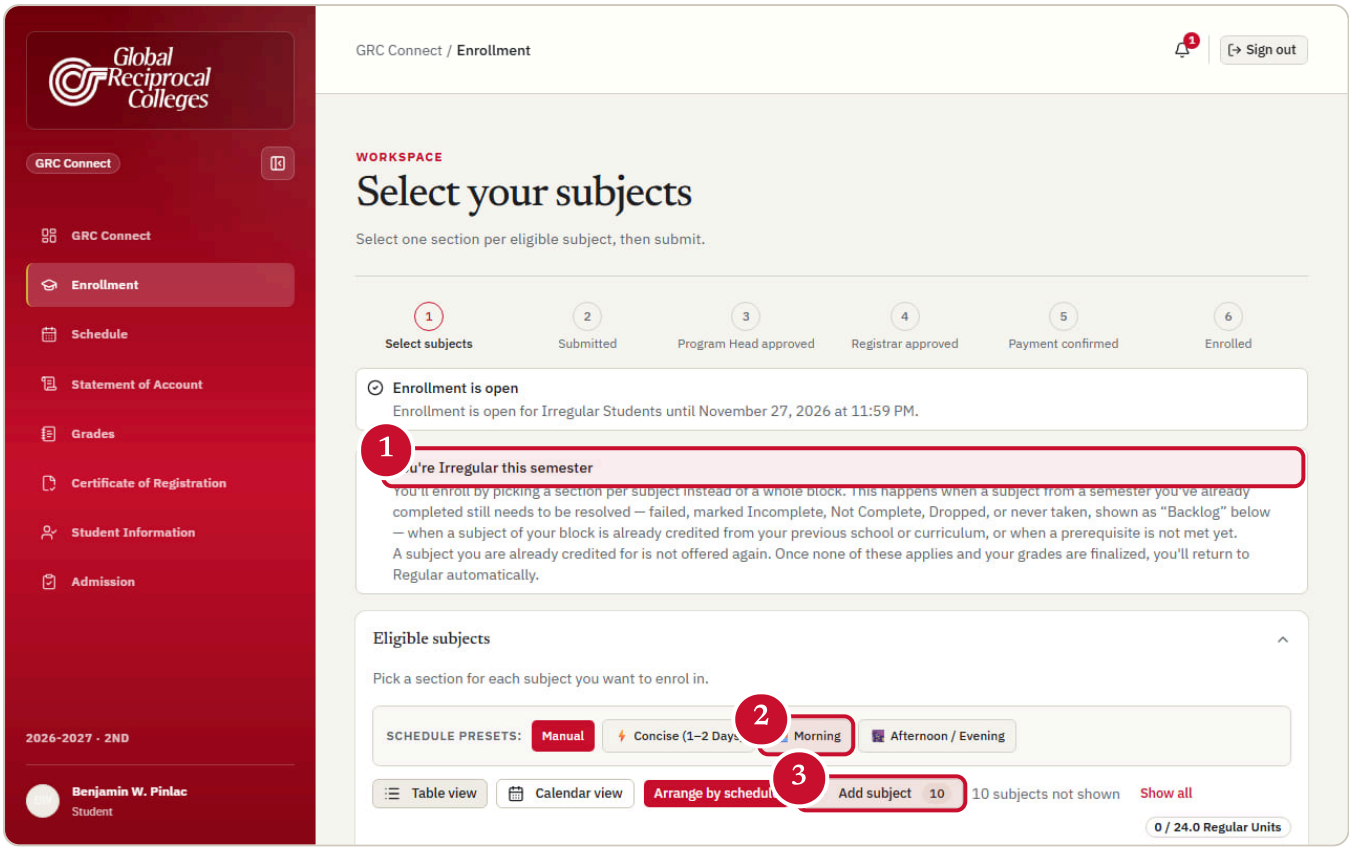

Payment confirmed: the Cashier records your payment and the status becomes Enrolled.

> **Be careful**
> Only the Cashier can confirm payment. Submitting an enrollment does not enroll you until the Registrar approves it and the Cashier confirms your payment.

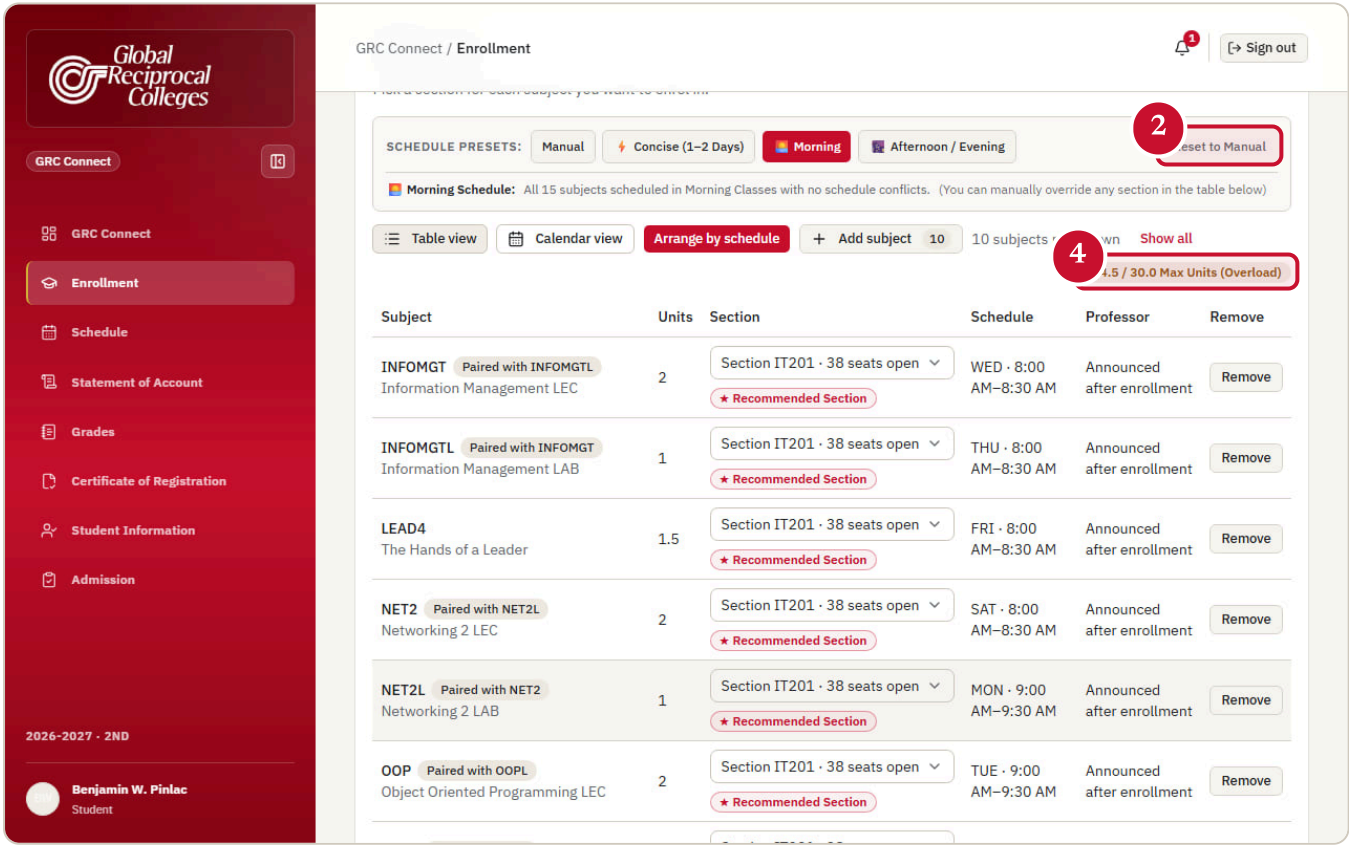

If you are an irregular student

You are an irregular student when a subject from a semester you have already finished still needs to be resolved (failed, incomplete, dropped or never taken), when a subject of your block is credited from another school or curriculum, or when a prerequisite is not met yet. You then pick a section for each subject instead of taking a block. The page tells you each semester whether you are regular or irregular, and why.

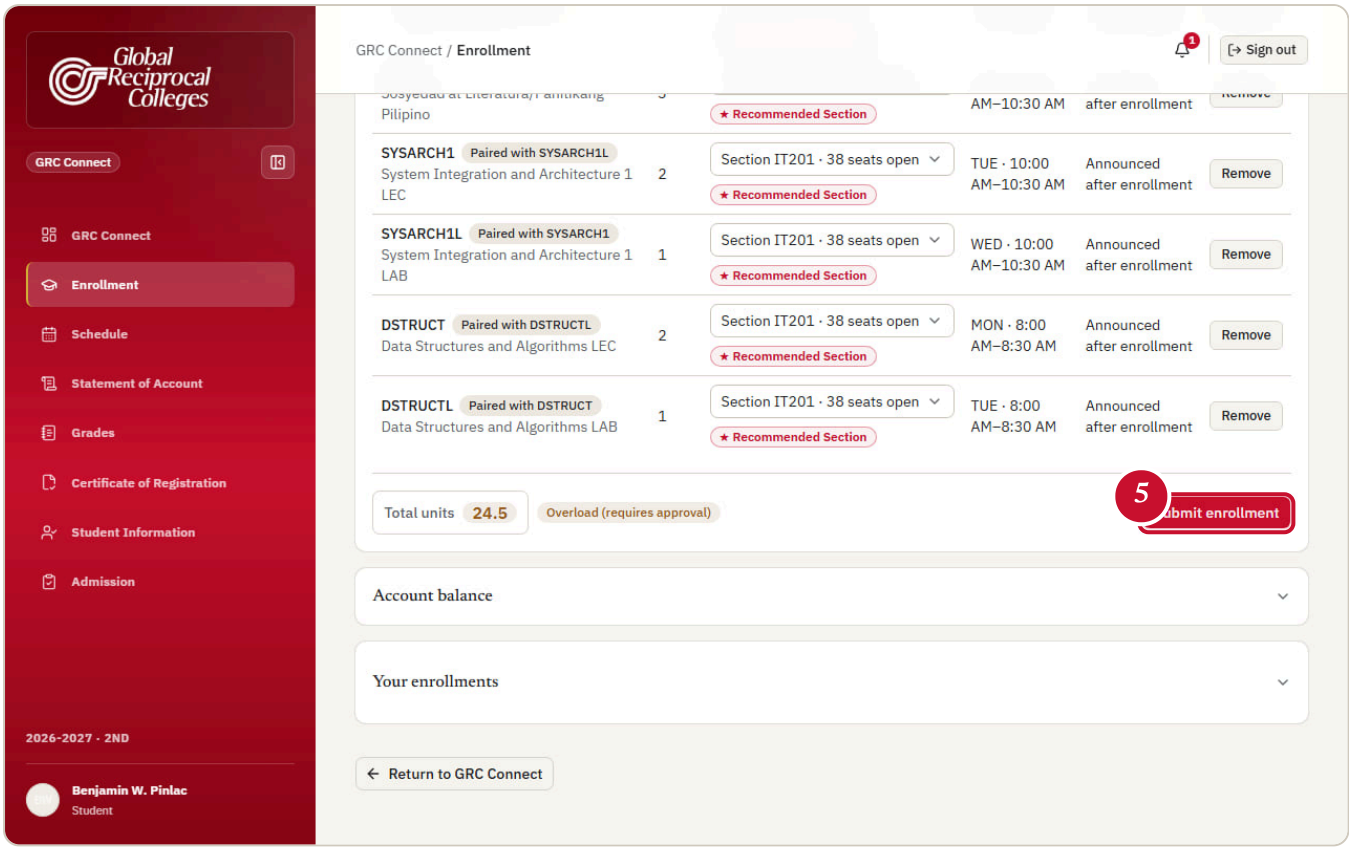

1. Read **You're Irregular this semester** to see why.
2. Pick a **Schedule preset** to fill the table for you, or choose each section yourself.
   Concise (1-2 Days), **Morning** and **Afternoon / Evening** pick sections that fit that pattern without conflicts. **Manual** leaves every subject for you. Select **Reset to Manual** to start over.
3. Use **Add subject** for a subject that is not shown, and **Remove** for one you do not want.
4. Watch the unit counter at the top of the table.
   It shows your units against the regular load and the maximum. An overload needs the Program Head to acknowledge it.
5. Select **Submit enrollment**, then **Confirm submission**.
6. Your Program Head reviews it first.
   The tracker has one more step for you: **Program Head approved**.

Steps 1 to 3: an irregular student's page lists the eligible subjects, each with its own section.

Steps 2 and 4: a preset has chosen a section for every subject.

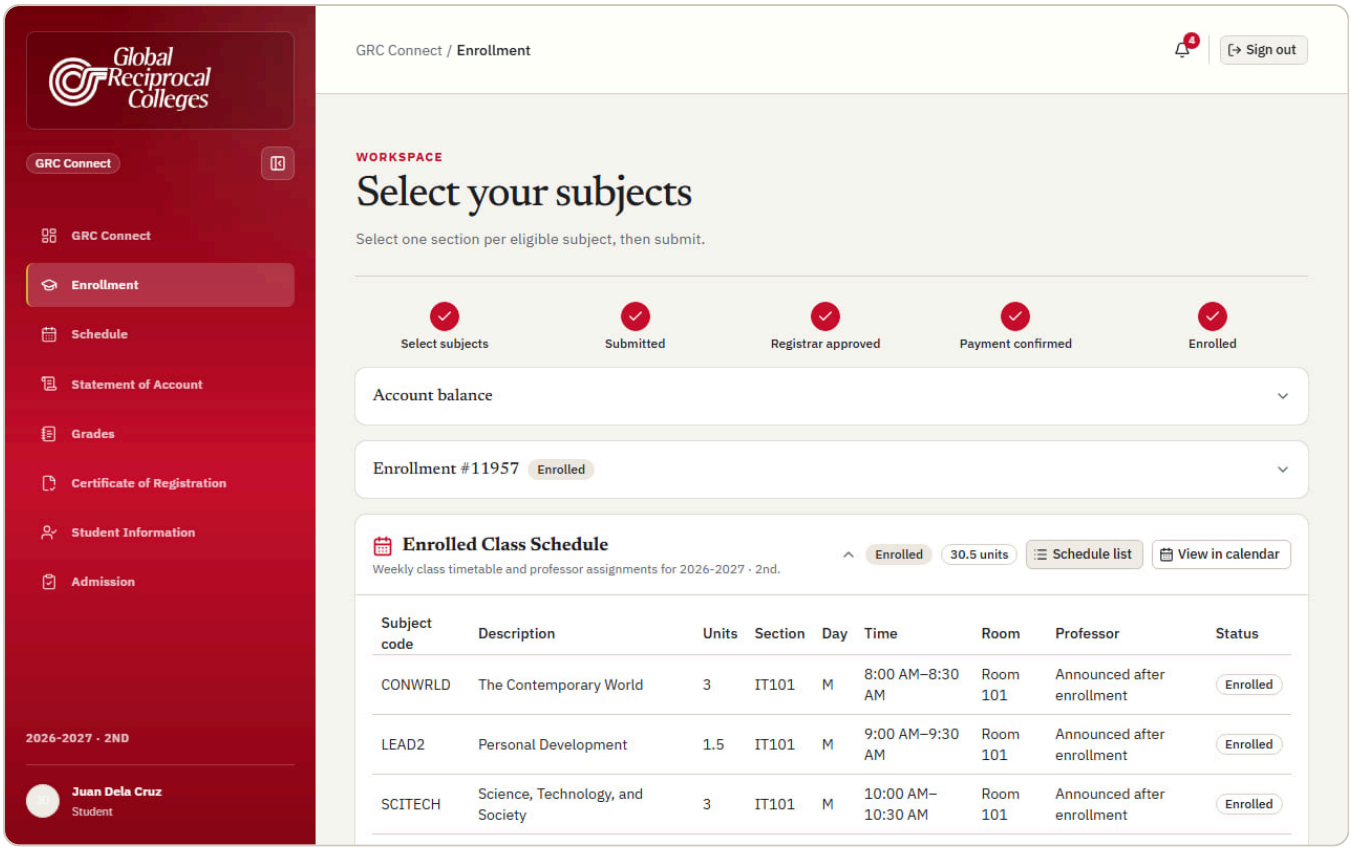

Step 5: submit when every subject has a section.

> **If the Program Head changes your subjects**
>
> The enrollment comes back to you with the Program Head's note. Accept it to send it on to the Registrar. If you decline, give a reason and it returns to the Program Head.

Changing your subjects after you are enrolled

Once you are enrolled, the Enrollment page shows your enrolled class schedule, the Add/Drop requests card and a list of your enrollments with your queue ticket. Every request you make goes to the Registrar for a decision.

The Enrollment page after you are enrolled.

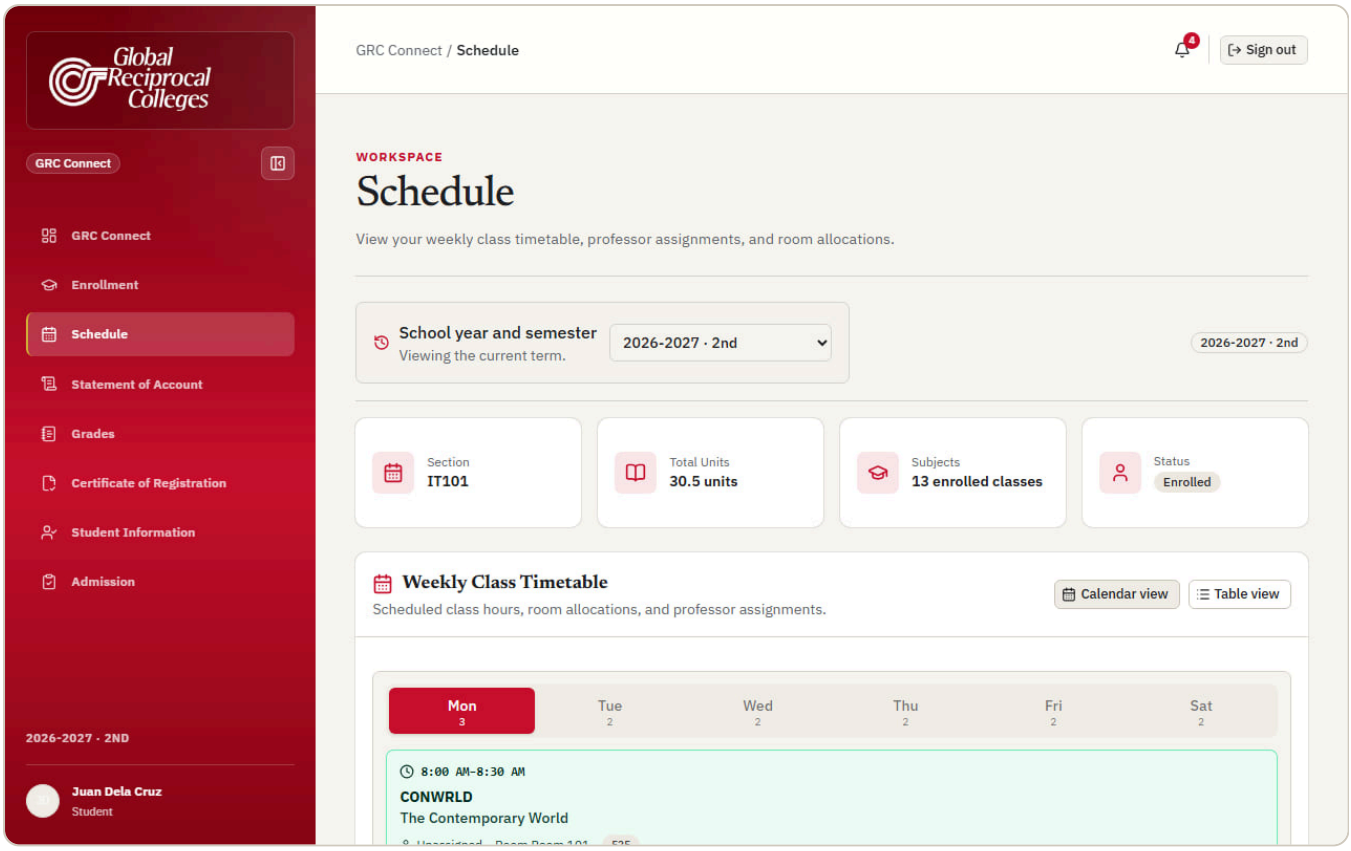

Add or drop a subject: open the **Add/Drop requests** card, choose the subject, give a reason and send the request. The card says when it opens: the add/drop window opens once enrollment closes for the term, and it closes at the add/drop deadline.

Withdraw from the term: use **Withdraw from this term**. You are asked to confirm and the Registrar decides the request.

> **Be careful**
>
> A request is not final until you see the Registrar's decision in Your add/drop requests or Your withdrawal requests, and in your notifications.

Schedule

Your weekly timetable, with the room and professor for each class.

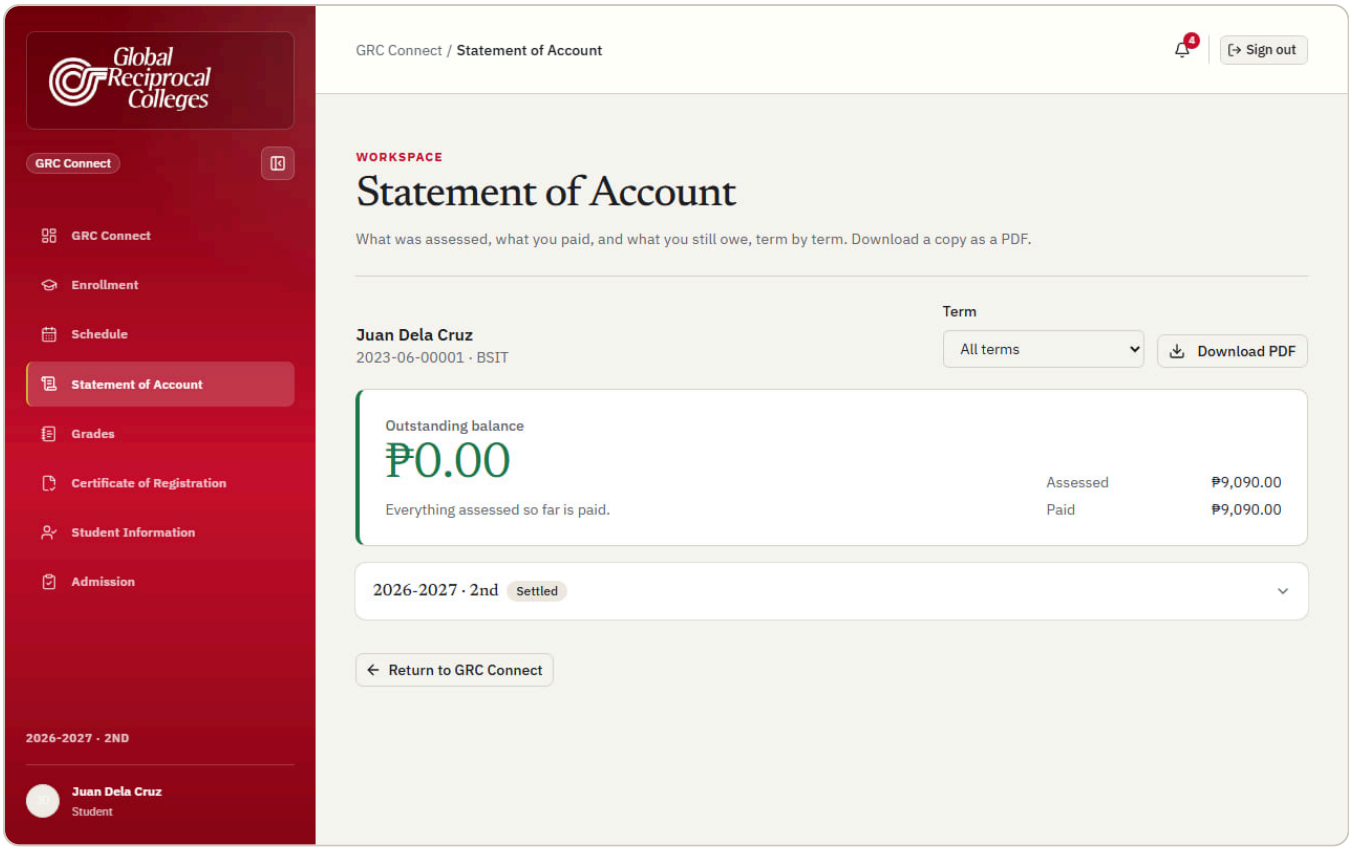

Your schedule, by day.

1. Open **Schedule** and pick the school year and semester if you want an earlier one.
2. Use **Calendar view** for the week by day, or **Table view** for a list.
3. The summary cards show your section, total units, number of subjects and your status.

Statement of Account

What was assessed, what you paid and what you still owe, term by term.

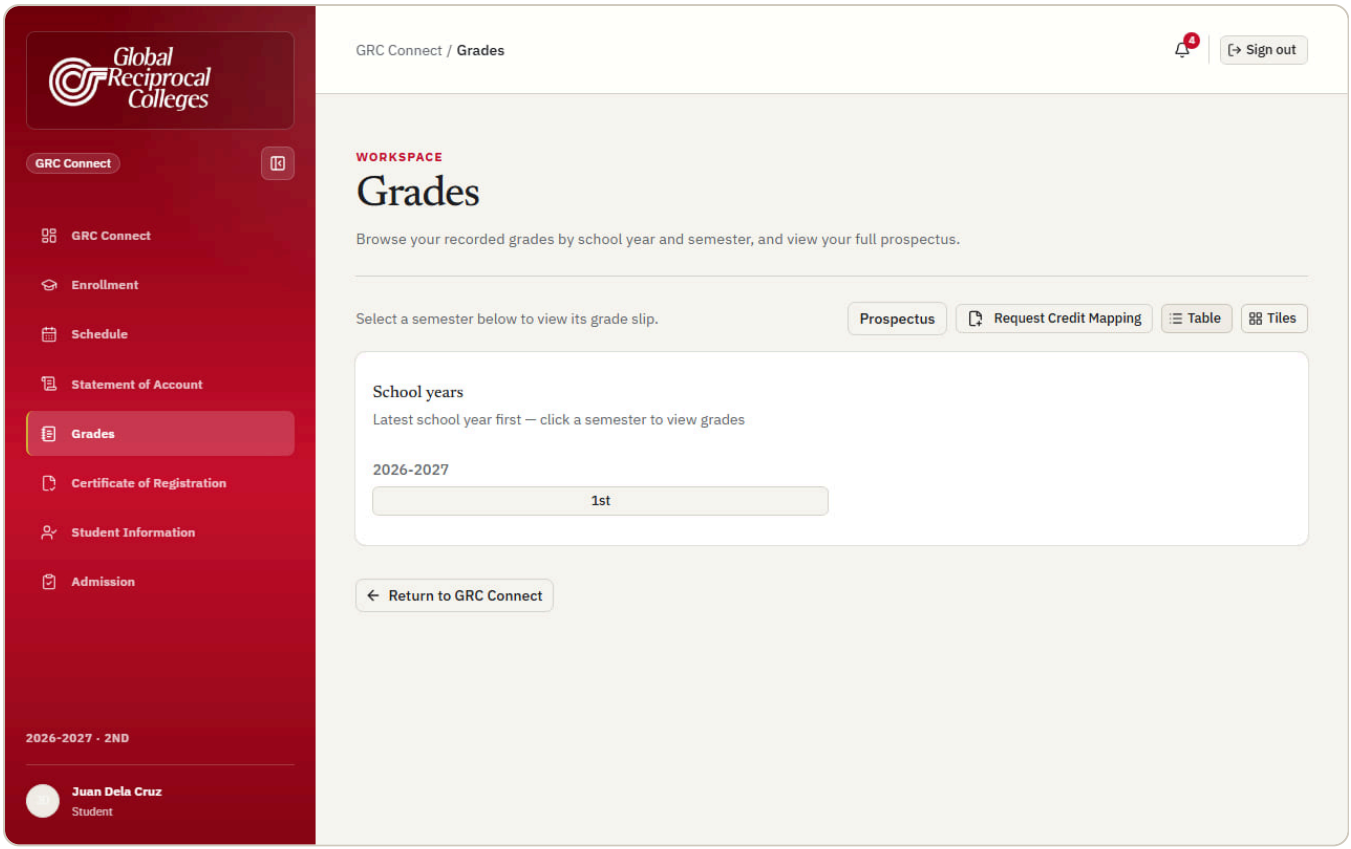

Your Statement of Account.

1. Pick a term, or leave **All terms**.
2. Read the outstanding balance, the amount assessed and the amount paid.
3. Select **Download PDF** to keep a copy.

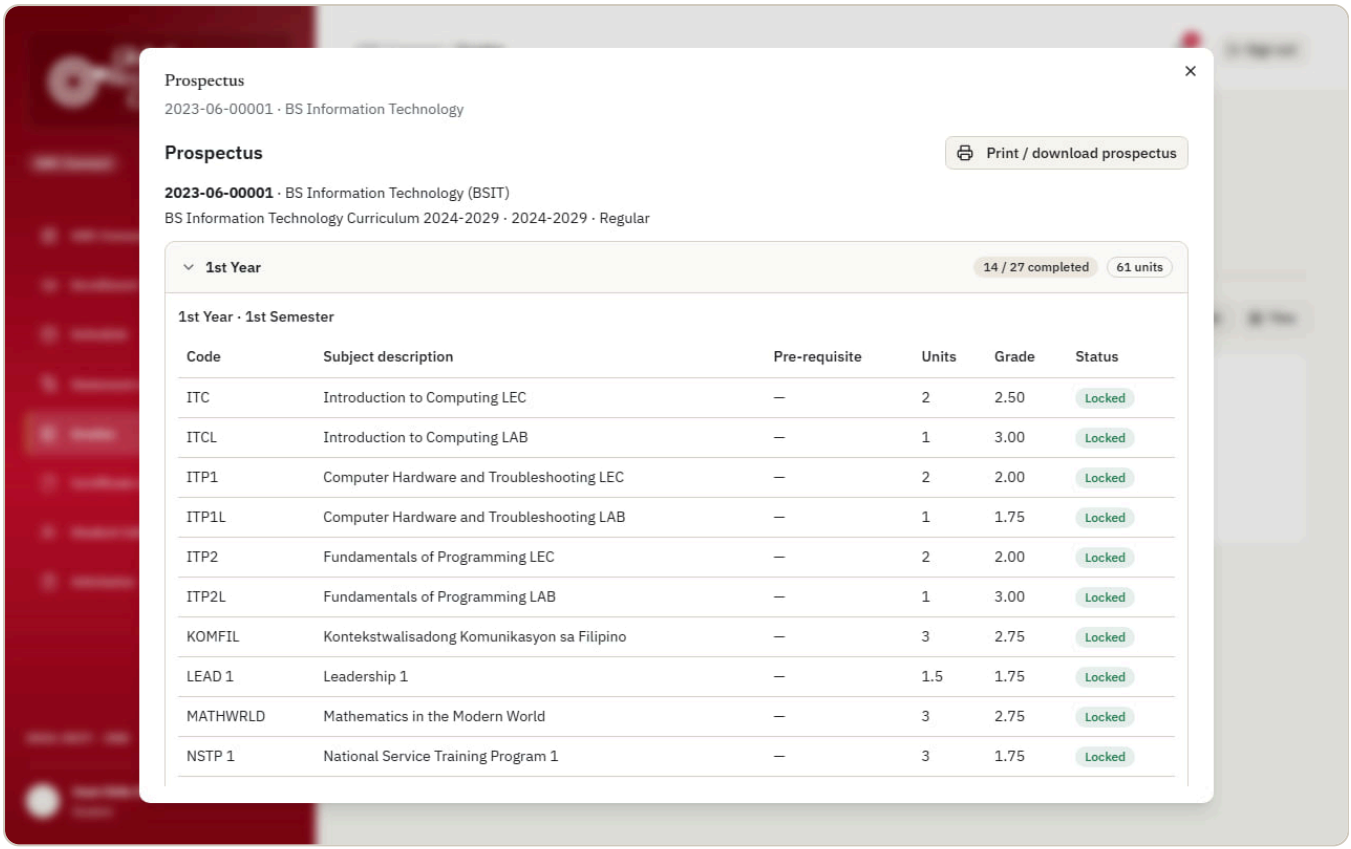

Grades and prospectus

Your recorded grades by school year and semester, and your whole curriculum in the prospectus.

Choose a semester to open its grade slip.

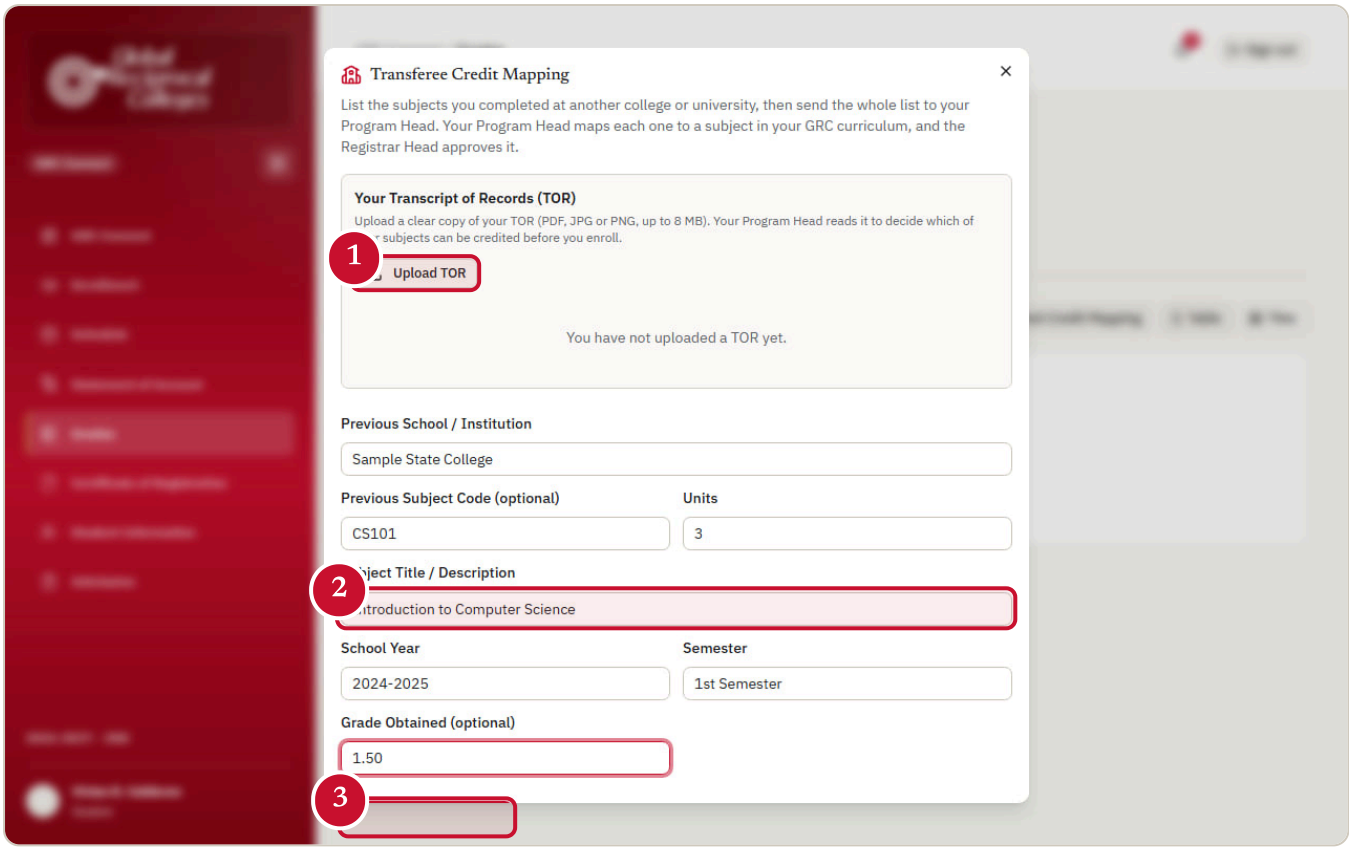

1. Select a semester under a school year to open its grade slip.
2. Select **Prospectus** to see every subject in your curriculum and your grade for each.
3. Switch between **Table** and **Tiles** to read it the way you prefer.

The prospectus lists every subject of your curriculum.

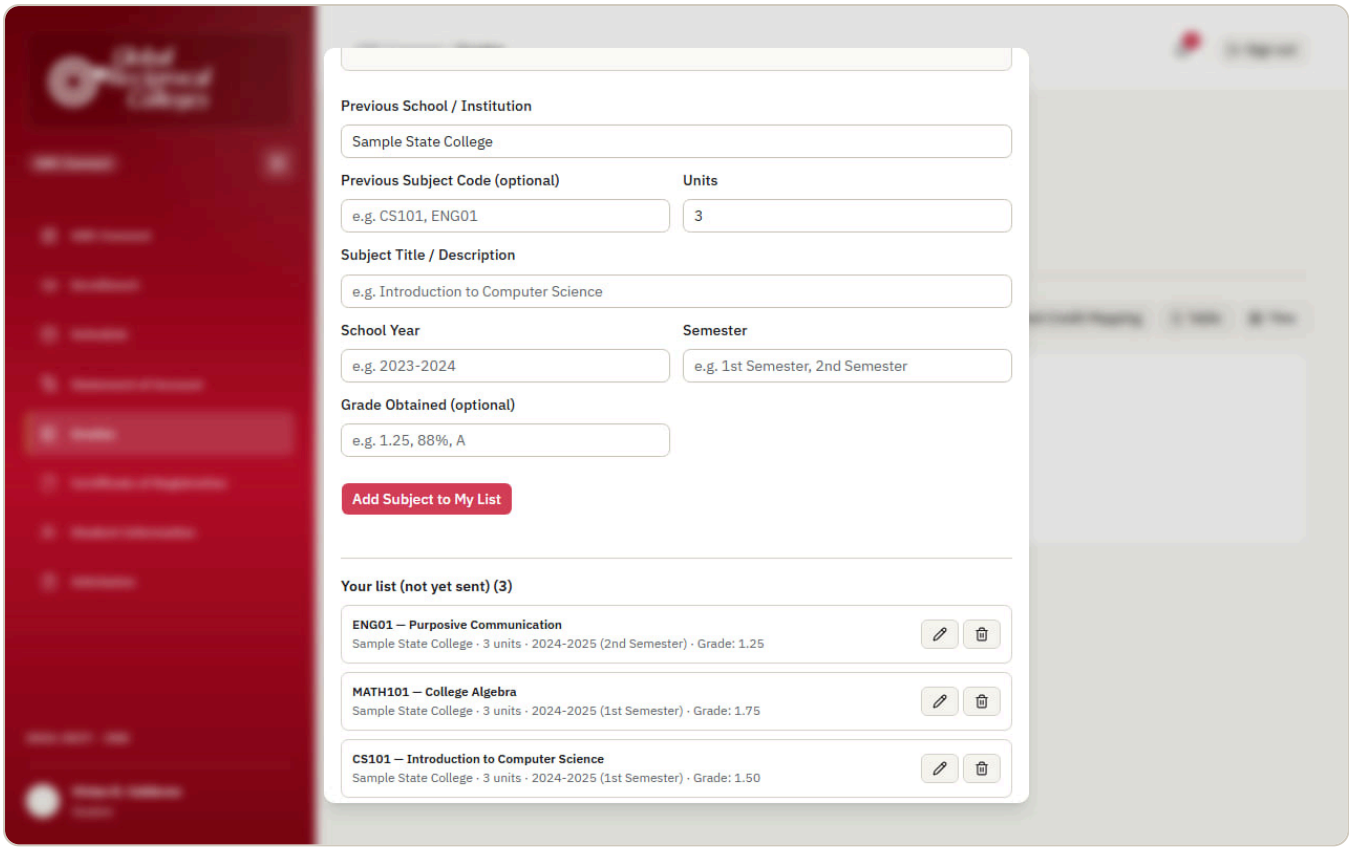

> **Good to know**
>
> A grade appears here once the professor has submitted it and the Registrar has locked it.

If you took subjects at another school, select **Request Credit Mapping** and list them. Your list goes to your Program Head, who maps each subject to your curriculum. The Registrar Head then approves it. The Prospectus marks credits that still wait for approval.

List every subject you took at another school, one at a time.

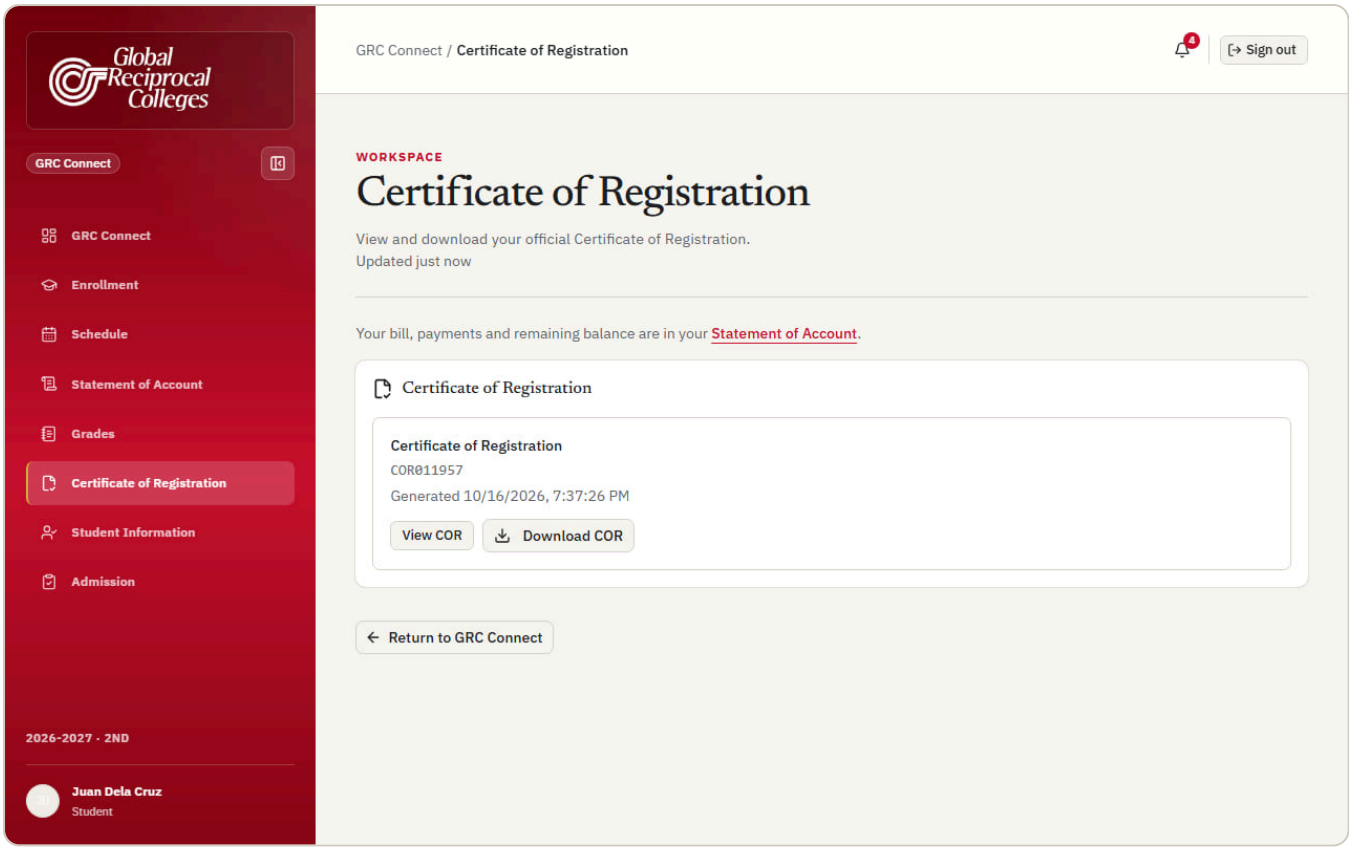

1. Select **Upload TOR** and add a clear copy of your Transcript of Records (PDF, JPG or PNG).
2. Fill in the school, subject, units, school year, semester and grade of one subject.
3. Select **Add Subject to My List**. Repeat steps 2 and 3 for each subject.
4. Select **Submit to Program Head** when the list is complete.

Your list, ready to send. Once it is sent, the Program Head maps each subject.

Certificate of Registration

Your official proof of enrollment. It is created when the Cashier confirms your payment.

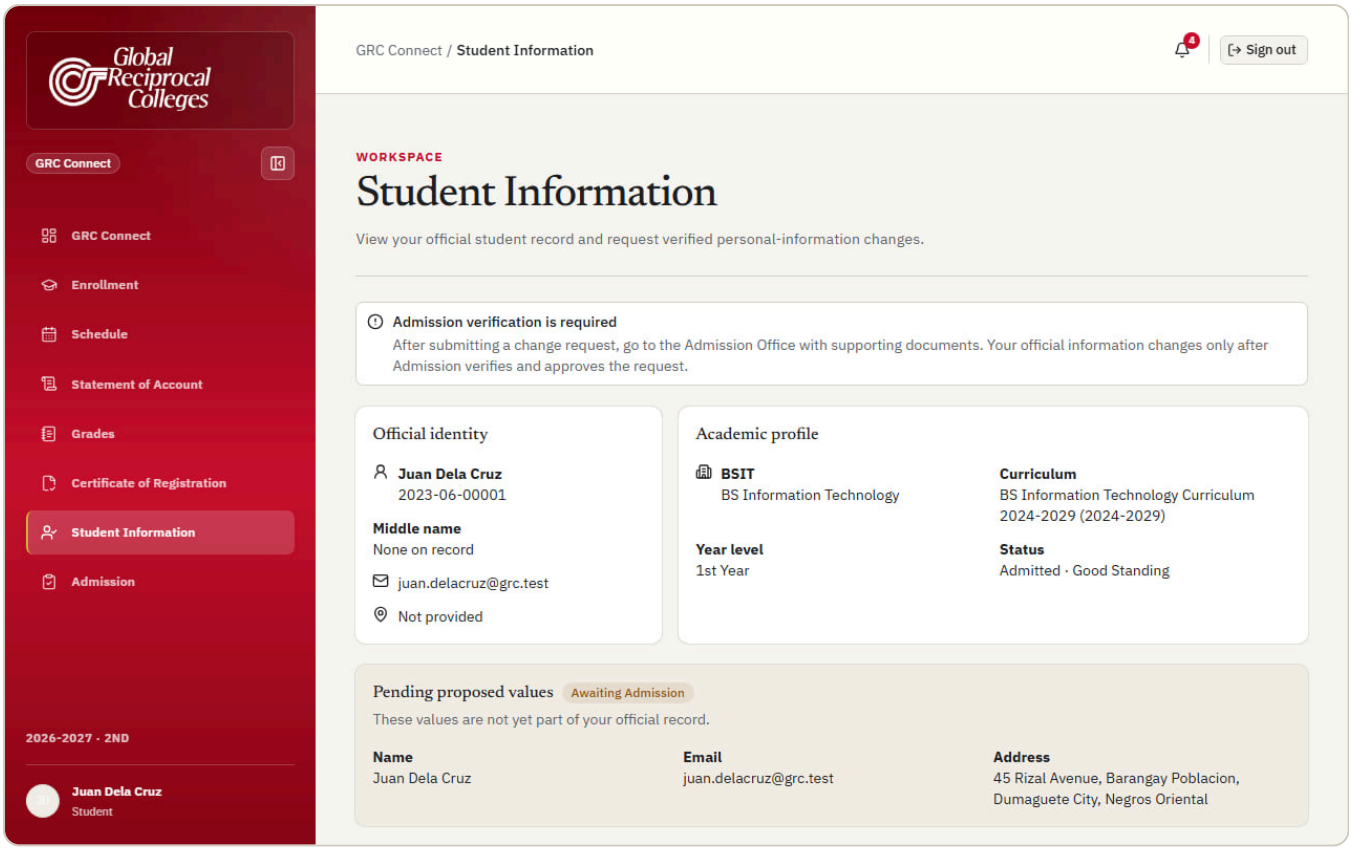

The Certificate of Registration page.

1. Open **Certificate of Registration** after your payment is confirmed.
2. Print it or save it as a PDF with your browser's print option.

> **Good to know**
>
> Until payment is confirmed the page says that no Certificate of Registration has been generated yet. Your bill and balance are in the Statement of Account.

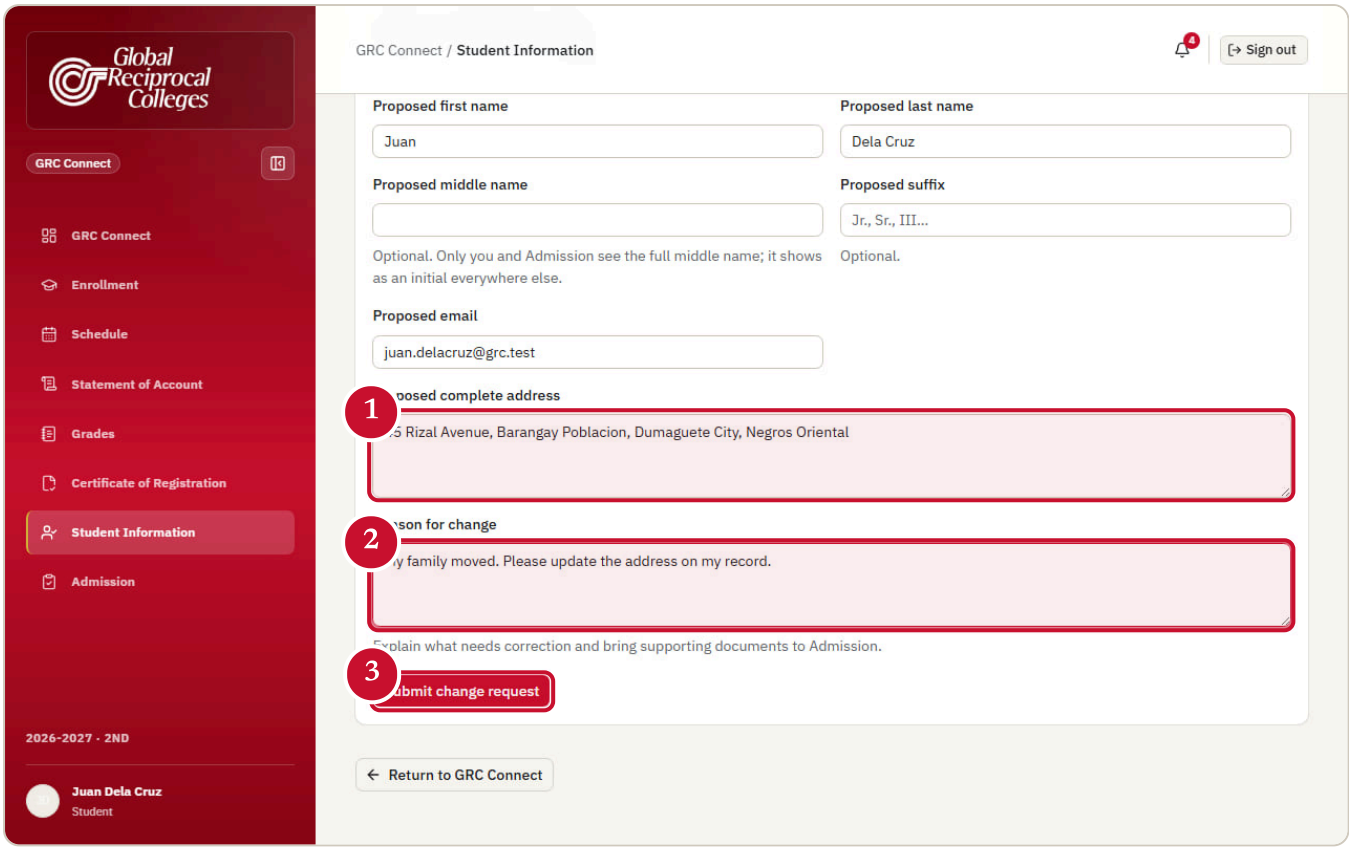

Student Information

Your official identity and academic profile, and the way to ask for a correction.

Your official information, with the form to request a change below it.

1. Under **Request an information change**, type the correction. Only your name, email and complete address may be requested.
2. Explain what needs correction in **Reason for change**.
3. Select **Submit change request**.
4. Take your supporting documents to the Admission Office. Your information changes only after Admission verifies and approves the request.

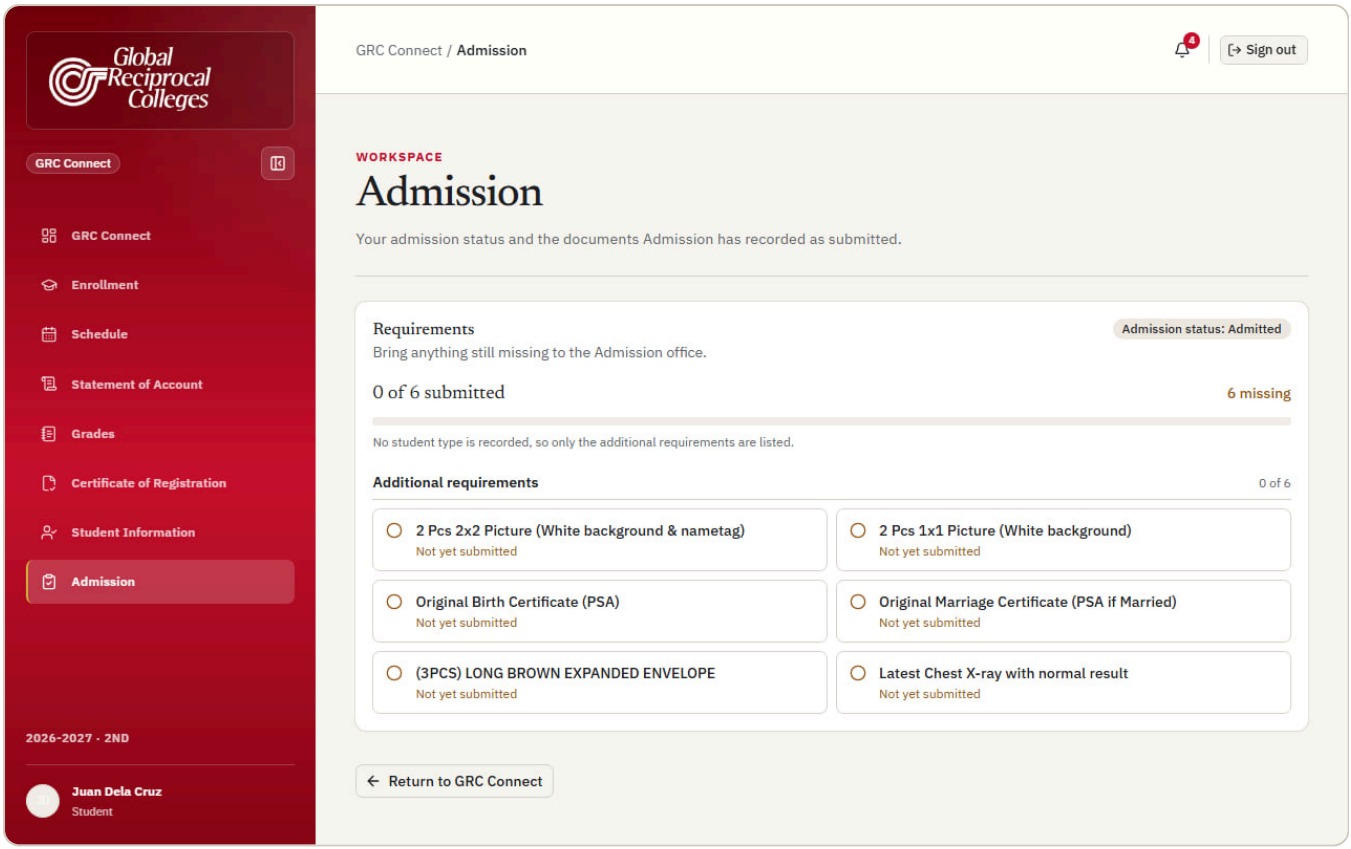

Ask for a correction, give the reason, then bring your documents to Admission.

> **Good to know**
>
> While a request is waiting you can revise or cancel it, and **Request history** shows every decision with the Admission Office's notes.

Admission

Your admission status and the documents Admission has recorded as submitted.

Your admission requirements checklist.

A filled circle means Admission has received the document. An empty one is still missing.

The bar and the count show how many requirements are submitted.

Bring anything still missing to the Admission Office.
